PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditors, set out in the section titled *‘Financial Statements’* beginning on page 183 of this Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in this Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled *‘Financial Statements’* beginning on page 183 of this Prospectus.

CURRENCY OF PRESENTATION

In this Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY & MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Prospectus have been obtained from publically available Information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Prospectus is reliable, it has not been independently verified by the Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section “*Risk Factors*” on page 17 of this Prospectus. Accordingly, investment decisions should not be based solely on such information.

Future looking statements speak only as of the date of this Prospectus. Neither we, our Directors, Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the LM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

FORWARD LOOKING STATEMENTS

This Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors / areas in which we operate;
- Increased competition in the sectors / areas in which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “Risk Factors” and chapter titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 17 and 184 respectively of this Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Prospectus. Neither we, our Directors, Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the LM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or any part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act, 2013 and its applicable Companies Act Rules (as amended from time to time) and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 127, “Our Industry” beginning on page 105 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 184 respectively, of this Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively; and*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 2 of this Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS

BUSINESS/ COMPANY SPECIFIC RISK

- We have not placed orders for 49.35% of the Plant & Machineries which will be required to be installed in the new manufacturing facility.***

Our Company has planned to set-up a new manufacturing facility in which Company intends to increase its production capacity of manufacturing closed dies forging items. For this purpose, the Company has already acquired land at Rajkot and our Company has also finalized the list of the machineries which are required to be installed at the new facility. Further, the machineries worth Rs, 78.6 Lakhs have already been received while orders have been placed for machineries worth Rs. 267.83 Lakhs. However, for 49.35% are certain plant and machineries which are yet to be installed for which the orders are yet to be placed. Further, we have not entered into any definitive agreement with any of the suppliers for the purchase of the balance plant and machineries as the Company is on the negotiating stage with suppliers. However, we cannot assure you that the Company will be able to negotiate successfully and shall be able to procure the balance plant and machineries required

- Our Company has negligible presence in export markets and hence prone to adversity in domestic market.***

Our Company is into the forging business catering to the demand of domestic market with various third-party suppliers, OEMs. Our Company has been focusing on the domestic market considering the growth opportunity available in the Indian automobile sector. Due to our specialized focus in Indian market, we have not been able to cater to export market and having meagre presence. Our export operations contribute approx. 1.43% of our Total Revenue for the period ended 31st Dec, 2017.

Due to over-dependency over the Indian markets, our Company faces risk in terms of adversity or events which are unexpected, or beyond our control. Further, lower than anticipated demand from automobile sector within India may lead to lower revenue and hence overall profitability. We may also be not able to explore the opportunity available in export market which may arise due to changing business scenario and demand patterns. However, our Company intends to expand its operations to foreign market but we may not be able to assure that our Company will successfully increase its geographical presence.

3. ***Failure to obtain or maintain pre-qualifications from customers or loss of our pre-qualified status from our existing customers could adversely impact our business.***

Majority of our customers require forging manufacturers to undergo pre-qualification processes. These processes evaluate both the technical ability to provide relevant products with the exact specifications needed by the end-user, and the production capabilities of the supplier. These processes generally take time to complete and involves incurring significant upfront expenses in learning and meeting customer qualification requirements. We continuously strive to retain our pre-qualification status as approved suppliers, with the existing customers. Our failure to obtain pre-qualifications from newer customers or loss of our prequalified status from our existing customers could have an adverse impact on our profits, results of operations and cash flows.

4. ***Any significant decline in the demand for our products or introduction of alternative technology or consumer habits may adversely affect our profitability and business prospects.***

Our products are mainly used in the automobile industry, refineries, oil pipeline industry, etc. Our customers' decision to seek alternative technology coupled with the development of more alternatives and our inability to respond to these changes, may adversely affect our business and results of operations. Our ability to anticipate changes in technology and to supply new and enhanced products successfully and on a timely basis will be a significant factor in our ability to grow and to remain competitive. In addition, our business, operations and prospects may be affected by various policies and statutory and regulatory requirements and developments that affect our customer's industry in India and abroad. In the event of a significant decline in the demand for our products, our business, results of operations and financial condition may be materially and adversely affected.

5. ***Volatility in the supply and pricing of raw material like alloy steel, low carbon and medium carbon steel may have an adverse effect on our business, financial condition and results of operations. We do not generally enter into agreements with our raw material or traded goods suppliers. Any disruption in supplies from them may adversely affect our production process.***

Our Company meets its demand of raw material i.e. alloy steel, low carbon and medium carbon steel, etc. by purchasing the same from the domestic market. Our dependence on local suppliers may adversely affect our purchase and thus affect profitability in future.

We do not have long term agreements with any of our raw material suppliers and we purchase such raw materials on spot order basis. Though we maintain good relations with them, there can be no assurance that we shall be able to continue such relations with any or all of them. Any disruption in supplies from these parties may require us to find additional suppliers. There can be no assurance that we shall be able to find additional suppliers in time or transact business with them on favourable terms and conditions or the quality of products supplied by these suppliers will be at par with those of our existing suppliers. Since such suppliers are not contractually bound to deal with us exclusively, we may face the risk of losing their services to our competitors. Any disruption in supplies from our suppliers due to inexistence of contracts may adversely affect our production process, trading activity and consequently our results of operations. Further, our top 10 and 5 suppliers for the period ended 31st December, 2017 have contributed 62.78% and 46.04% respectively, while for the year ended 31st March, 2017, the same stood at 66.18% and 42.22% respectively, of our total purchases. While we

are not significantly dependent on any single raw material supplier, raw material supply and pricing can be volatile due to a number of factors beyond our control, including demand and supply, general economic and political conditions, transportation and labour costs, labour unrest, natural disasters, competition, import duties, tariffs and currency exchange rates, and there are inherent uncertainties in estimating such variables, regardless of the methodologies and assumptions that we may use. Therefore, we cannot assure you that we will be able to procure adequate supplies of raw materials in the future, as and when we need them on commercially acceptable terms.

Further, there may be volatility in prices of our raw material and if we are not able to compensate for or pass on our increased costs to customers, such price increases could have a material adverse impact on our result of operations, financial condition and cash flows. Additionally, we may not be able to pass on every instance of increase in input cost and may have to pursue internal cost control measures.

6. Our Company, Directors/Promoters are parties to certain legal proceedings including taxation. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.

There are certain outstanding legal proceedings including tax involving our Company, Directors and our Promoters. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. A summary of outstanding litigation in relation to direct tax matters and other material pending litigation by and against our Company and Directors/ Promoters have been set out below.

7. The amounts claimed in the proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. We may incur significant expenses and management time in such legal proceeding. Decisions in any of the aforesaid proceedings adverse to our interests may have an adverse effect on our business, future financial performance and results of operations. If the courts or tribunals rule against our Company or our Directors/Promoters, we may face monetary and/or reputational losses and may have to make provisions in our financial statements, which could increase our expenses and our liabilities and consequently affect the trading price of our Equity Shares. For further details, please refer to the chapter titled "*Outstanding Litigations and Material Developments*" beginning on page 206 of this Prospectus.
8. ***Our historical revenues have been significantly dependent on few customers. We have not entered into any long term or definitive agreements with our customers. If our customers choose not to source their requirements from us, our business, financial condition and results of operations may be adversely affected.***

A significant proportion of our revenues have historically been derived from a limited number of customers. Our top 10 and top 5 customers for the period ended 31st December, 2017 contributed 62.09% and 45.23% of our total revenue from operations, while, for the financial year 2016-17 the same stood at 61.03% and 39.68% respectively. The loss of orders from any of these significant customers will result in a considerable reduction in our revenue. Our business from customers is dependent on our continuing relationship with such customers, the quality of our products, competitive pricing and our ability to timely deliver on their orders, and there can be no assurance that such customers will continue to do business with us in the future on commercially acceptable terms or at all. If our customers do not continue to purchase products from us, or reduce the volume of products purchased from us, our business prospects, results of operations and financial condition may be adversely affected. Significant dependence on them may increase the potential volatility of our results of operations and exposure to individual contract risks. In the event that any of these customers discontinue purchase of products from us, our results of operations and financial condition may be adversely affected.

We have not entered into any long term or definitive agreements with our customers, and instead rely on purchase orders to govern the volume, pricing and other terms of sales of our products. However, such orders may be amended or cancelled prior to finalisation, and should such an amendment or cancellation take place, we may be unable to seek compensation for any surplus unpurchased products that we manufacture. Our customers do not, typically, place firm purchase orders until a short time before the products are required from us as a result of which, we do not hold a significant order book at any time, making it difficult for us to forecast revenue, production or sales. Consequently, there is no commitment on the part of the customer to continue to source their requirements from us, and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers' vendor preferences.

Any failure to meet our customers' expectations could result in cancellation of orders. There are also a number of factors other than our performance that are beyond our control and that could cause the loss of a customer. Customers may demand price reductions, set-off any

payment obligations, require indemnification for themselves or their affiliates or replace their existing products with alternative products, any of which may have an adverse effect on our business, results of operations and financial condition.

9. ***We require a number of approvals, NOCs, licenses, registrations and permits in the ordinary course of our business. Some of these approvals are required to be transferred in the name of "Ganga Forging Limited" from "Ganga Forging Private Limited" pursuant to name change of our Company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.***

We require several statutory and regulatory approvals, licenses, registrations and permits to operate our business, some of which our Company has either received or is likely to receive in due course. Our Company has not applied for professional tax registration certificate as required under the Gujarat State Tax on Professions, Trades, Callings and Employments Act, 1976. Further, some of these approvals, licenses, registration and permits are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant approvals, licenses, registrations and permits. Any failure to renew the approvals, license, registrations and permits that may have been issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial conditions, results of operations and prospects. We cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked to any regulatory actions. Furthermore, most of our licenses are in the name of Ganga Forging Private Limited and we have not applied for change in the same pursuant to conversion of the Company. For more information, please refer to chapter titled "*Government and Other Statutory Approvals*" beginning on page 212 of this Prospectus.

10. ***Our Company could not retrieve certain records, forms filed with the Registrar of Companies.***

Our Company was incorporated as a private limited company in 1988 under the provisions of the Companies Act, 1956. Due to change in methods of record keeping over the years, certain forms filed with the Registrar of Companies prior to the year 2006 such as return of allotment, annual returns, etc. could not be traced by our Company. Online filing of ROC documents was initiated in the year 2006 and all forms prior to the said year were physically filed, hence certain forms, could not be retrieved from the office of Registrar of Companies, Ahmedabad, Gujarat. Further, our Company has not been able to trace transfer forms and the information regarding the same is based on the share transfer register maintained by the Company. Our Company may not be in a position to attend and / or respond appropriately to any legal or business matter due to lack of lost / destroyed records and to that extent the same could affect our Company adversely.

11. ***The initial subscription of 20 shares as per the Memorandum of Association have not been included in the calculation of the paid up capital.***

At the time of subscription, Mr. Chhaganlal Trikambhai Nar and Mr. Shamji Govind Ladani, the initial subscribers to the Memorandum of Association were to be allotted 10 shares each. These 20 shares have not been included in the calculation of the current paid up capital and we have assumed that these shares have been included in the next allotment of 5,000 shares made on January 15, 1990. For further details, please refer to the chapter titled "*Capital Structure*" beginning on page 73 of this Prospectus

12. ***Delay in schedule of the setting up of facility may subject our Company to risks related to time and cost overrun which may have a material adverse effect on our business, results of operations and financial condition.***

Our Company is currently proposing to set-up a new manufacturing facility at Rajkot. For further details regarding to our proposed manufacturing facility, please refer the chapter titled "Objects of the Issue" on page 93 of this Prospectus. We may face risks relating to the delay in schedule of setting up of facility, complete the project within our estimated budget, failure of our contractors and suppliers to adhere to our specifications and timelines, and changes in the general economic and financial conditions in India. Further as and when we complete our set-up work, our material requirements and costs as well as our staffing requirements and employee expenses may increase and we may face other challenges in extending our financial and other controls to our unit managing our consequent growth. In the event that the risks and uncertainties discussed above or any other unanticipated risks, uncertainties, contingencies or other events or circumstances limit or delay our efforts to use the Net Proceeds to achieve the planned growth in our business, the use of the Net Proceeds for purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of your investment in our Equity Shares.

13. ***Our Company is dependent on third party logistics service providers, with whom we have no formal arrangements, for the delivery of our finished goods and any disruption in their operations or a decrease in the quality of their services or an increase in the transportation costs could adversely affect our Company's reputation and results of operations.***

We primarily depend on third party logistics service providers to deliver our finished goods to our customer. Such logistics providers are arranged on spot basis and in certain cases may not be insured for the full value of the load that they are carrying in case of domestic sale. We also rely on third parties logistic service providers, with whom we have no formal arrangement, to provide trucking, shipping and other transportation facilities for the transfer of finished goods to port or customer's country depending upon the requirement. These transportation facilities may not be adequate to support our existing and future operations and there may be disruptions of transportation and logistics services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure and seaport facilities. Also we do not own any trucks or commercial transport vehicles and primarily use third-party logistics providers for all operations. In addition, any increase in the charges imposed by the operators of transportation and logistics facilities would significantly impact our costs and results of our operations. Any disruption of any of our transportation routes or facilities may adversely affect our business, financial condition, results of operations and cash flows.

14. ***The shortage or non-availability of power facilities may adversely affect our manufacturing process and have an adverse impact on our results of operations and financial condition.***

Our manufacturing process requires substantial amount of power facilities. The quantum and nature of power requirements of our industry and Company very high and thus to meet our electricity requirements, we have a sanctioned load power capacity of 700 KW from Paschim Gujarat Vij Company Limited. Any disruption / non availability of power or failure on our part to arrange alternate sources of electricity, in a timely manner and at an acceptable cost shall directly affect our production which in turn shall have an impact on operations and results of our Company.

15. ***Our Company requires significant amounts of working capital for a continued growth. Our***

inability to meet our working capital requirements may have an adverse effect on our results of operations.

Our business is working capital intensive and requires significant portion of working capital and major portion of which is utilized towards trade receivables and trade payables. Further, our Company intends to continue growing by reaching out to newer clients/ customers and also increasing the sales in the existing customer base. Our growing scale and expansion, may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out of debts, could adversely affect our financial condition and result of our operations. Summary of our working capital position is given below:-

16. *Our Company has negative cash flows from its operating activities, investing activities as well as financing activities in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.*

Our Company had negative operating cash flows from our operating, investing and financing activities in the previous years as per the Restated Financial Statements and the same are summarized as under:

Particulars	For the period ended 31 st Dec, 2017	For the year ended 31 st March			
		2017	2016	2015	2014
<i>Amount (Rs. In lakhs)</i>					
Cash Flow from / (used in) Operating Activities	(241.00)	49.96	159.5	318.8	(83.75)
Cash Flow from / (used in) Investing Activities	(130.59)	(154.92)	(141.21)	(96.28)	(135.49)
Cash Flow from / (used in) Financing Activities	367.98	114.68	(23.5)	(218.81)	209.55

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising

finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

17. *The industry in which we operate is labour intensive and our manufacturing operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.*

Our industry being labour intensive is dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We also have entered into an agreement with contract labours that provide us the necessary labours on contract basis. We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

18. *Our Company has not complied with certain statutory provisions under Companies Act. Such non-compliances/lapses may attract penalties.*

Our Company is required to comply with the applicable provisions under the Companies Act, 2013 and the applicable provisions under the erstwhile Companies Act, 1956. Our Company has lapsed in allotment of equity shares at the time of incorporation. Further, online filing of RoC documents was initiated in the year 2006 and all forms prior to the said year were physically filed, hence forms could not be retrieved from the office of Registrar of Companies. Further the Company could not retrieve all forms filed with ROC and minutes and other statutory records. While this could be attributed to lapses and human errors, our Company would ensure that such instances do not occur in future.

19. *Our manufacturing operations are critical to our business and any shutdown of our manufacturing facilities may have an adverse effect on our business, results of operations and financial condition.*

Our manufacturing facility is located at, Rajkot, Gujarat. Our success depends on our ability to successfully manufacture and deliver our products to meet our customer demand. Our manufacturing facility is also susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, loss of services of our external contractors, terrorist attacks, acts of war, break-ins, earthquakes, other natural disasters and industrial accidents and similar events. It is also subject to operating risk arising

from compliance with the directives of relevant government authorities. In past, there have been two instances where our facility met with a fire situation. Operating risks may result in personal injury and property damage and in the imposition of civil and criminal penalties.

If our Company experiences delays in production or shutdowns at our facility due to any reason, including disruptions caused by disputes with its workforce or any external factors, our Company's operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

Further, continuous addition of industries in and around our manufacturing facilities without commensurate growth of its infrastructural facilities may put pressure on the existing infrastructure therein, which may adversely affect our business.

20. *The industry segments in which we operate being fragmented, we face competition from other players, which may affect our business operations and financial conditions.*

We compete in forging industry on the basis of the quality of our products, price, and distribution. The industry in which we operate is highly competitive. Factors affecting our competitive success include, amongst other things, price, demand for our products, availability of raw materials, brand recognition and reliability. Our competitors vary in size, and may have greater financial, production, marketing, personnel and other resources than us and certain of our competitors have a longer history of established businesses and reputations in the Indian market as compared with us. Competitive conditions in some of our segments have caused us to incur lower net selling prices and reduced gross margins and net earnings. These conditions may continue indefinitely. Changes in the identity, ownership structure, and strategic goals of our competitors and the emergence of new competitors in our target markets may impact our financial performance. New competitors may include foreign-based companies and domestic producers who could enter our markets. Our failure to compete effectively, including any delay in responding to changes in the industry and market, together with increased spending on advertising, may affect the competitiveness of our products, which may result in a decline in our revenues and profitability.

21. *The construction and commencement of commercial operations of our New Project involve many uncertainties and risks that may have a material adverse effect on our business, results of operations and financial condition.*

Growth of our Company is mainly dependent upon the successful commencement of our new facility. The proposed facility involves engineering, construction and other commercial risks, including:

- (a) reliance on third parties to supply plant and machineries;
- (b) engineering design and technological changes;
- (c) mobilizing the required resources;
- (d) failure to obtain necessary governmental and other approvals;
- (e) changes in market conditions;
- (f) accidents, natural disasters and weather-related delays;
- (g) time and cost overruns and unanticipated expenses; and
- (h) regulatory changes.

Any significant delay in completing the proposed project as planned or on schedule may result in commencing operations in an increased competitive environment for its products. Such a scenario may have a material adverse effect on our business, results of operations and financial condition.

22. ***Increasing employee compensation in India may erode some of our competitive advantage and may reduce our profit margins.***

The industry we operate in is a labour intensive industry and employee compensation is one of the major components of our manufacturing cost. Wage costs in India have historically been significantly lower than the wage costs in the developed countries. Rapid economic growth in India and increased demand for skilled and semi-skilled workers in India has resulted in the increase of wages for comparable employees in India at a faster rate. Such wage increase in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. Further, many of our employees receive salaries that are linked to minimum wage laws in India and any increase in the minimum wage in any state in which we operate could significantly increase our operating costs. The buoyancy in the industry in which we operate with the opening up of global trade may lead to an increase in wage costs, which could result in increased cost for professionals. This could impact our performance and margins and may result in a material adverse effect on our business. The increase in wages and salaries can be witnessed as per our restated financial statements, where our employee expenses have increased from Rs. 111.43 Lakhs in FY 2015-16 to Rs. 139.72 Lakhs FY 2016-17. Further, the same stood at Rs. 135.23 Lakhs for period ended 31st December, 2017.

23. ***Our Company is engaged in manufacturing of closed die forged products catering to automobile parts, slowdown in the sector will adversely affect our financial performance.***

We are into manufacturing of closed die forged products which is used as automobile parts. Our business activity is closely linked with the growth and prospects of automobile industry. With increased production and demand of vehicles, automobile companies will increase their vehicle production leading to higher demand of our products. Any slowdown in the automobile sector, for any reasons, internal or external, will adversely affect our operational and consequently financial performance owing to decreased demand by the sector.

24. ***Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.***

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture and trade inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, which could have an adverse impact on our income and cash flows. We estimate our sales based on the forecast, demand and requirements and also on the customer specifications. Natural disasters such as earthquakes, extreme climatic or weather conditions such as floods or droughts may adversely impact the supply of raw material and local transportation. Should our supply of raw materials be disrupted, we may not be able to procure an alternate source of supply in time to meet the demands of our customers. Such disruption to supply would materially and adversely affect our business, profitability and reputation. In addition, disruptions to the delivery of product to our customer may occur for reasons such as poor handling, transportation bottlenecks, or labour strikes, which could lead to delayed or lost deliveries or damaged products and disrupt supply of these products. To improve our line capability, we try to stock our inventory at our manufacturing facility. An

optimal level of inventory is important to our business as it allows us to respond to customer demand effectively. If we over-stock inventory, our capital requirements will increase and we will incur additional financing costs. If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual consumer consumption could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation

25. ***Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.***

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. We face breakdown in our manufacturing process due to non-availability of raw material, excessive increase or expected increase in price of raw materials. Further, Company is currently fully dependent on the labours. So if, labours initiate strike then Company may face a breakdown in its manufacturing facility. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such products or cause its cancellation. Due to the possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customers discretion or problems we encounter in the delivery of such products or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. While we have not yet experienced any material delay, cancellation, execution difficulty, payment postponement or payment default with regard to the orders placed with us, or disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income.

26. ***Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances. A significant disruption at any of our manufacturing facilities may adversely affect our production schedules, costs, sales and ability to meet customer demand.***

Our business operations are subject to hazards such as risk of equipment failure, work accidents, fire or explosion and require individuals to work under potentially dangerous circumstances or with flammable materials. Although we employ safety procedures in the operation of our facilities and maintain what we believe to be adequate insurance, there is a risk that an accident or death may occur in one of our facilities. An accident may result in destruction of property or equipment, environmental damage, manufacturing or delivery delays, or may lead to suspension of our operations and/or imposition of liabilities. Any such accident may result in litigation, the outcome of which is difficult to assess or quantify, and the cost to defend litigation can be significant. As a result, the costs to defend any action or the potential liability resulting from any such accident or death or arising out of any other litigation, and any negative publicity associated therewith, may have a negative effect on our business, financial condition, results of operations, cash flows and prospects.

In particular, if operations at our manufacturing facility were to be disrupted as a result of any significant workplace accident, equipment failure, natural disaster, power outage, fire, explosion, terrorism, adverse weather conditions, labour dispute, obsolescence or other reasons, our financial performance may be adversely affected as a result of our inability to meet customer demand or committed delivery schedules for our products.

Interruptions in production may also increase our costs and reduce our sales, and may require us to make substantial capital expenditures to remedy the situation or to defend litigation that we may become involved in as a result, which may negatively affect our profitability, business, financial condition, results of operations, cash flows and prospects.

27. ***We could become liable to customers, suffer adverse publicity and incur substantial costs as a result of defects in our products, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.***

Any failure or defect in our products could result in a claim against us for damages, regardless of our responsibility for such a failure or defect. We currently carry no products liability insurance with respect to our products. Although we attempt to maintain quality standards, we cannot assure that all our products would be of uniform quality, which in turn could adversely affect the value of our brand, and our sales could be diminished if we are associated with negative publicity.

Also, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations.

28. ***Our success depends on our ability to attract and retain key employees, and our failure to do so could harm our ability to grow our business and execute our business strategies.***

Our performance and success substantially depends on the ability to attract and retain our key employees, including our management team and experienced engineers. Although some of the members of our senior management have been with us for a long period of time, there can be no assurance that any member of our senior management or other key employees will not leave us in the future.

Our success is also highly dependent on our continuous ability to identify, hire, train, retain and motivate highly qualified management, technical, sales and marketing personnel. The loss of the services of one or more of our key employees, especially our key engineers, or our inability to attract and retain qualified engineers, could harm our business, financial condition and results of operations.

29. ***We have in the past entered into related party transactions and may continue to do so in the future.***

Our Company has entered into various transactions with our Promoter, Promoter Group, Directors and their Relatives and Group Company in the past and from, time to time.

While we believe that all such transactions entered into are legitimate business transaction and are conducted on arm's length basis, there can be no assurance that we could not have achieved more favorable terms had such transactions not entered into with related parties. Furthermore, we will continue to enter into related party transactions in future. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation.

For details on the transactions entered by us, please refer to chapter "Related Party

Transactions” beginning on page 181 of the Prospectus.

30. *We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.*

Our foreign exchange transactions are not hedged. Our Company has derived approx. 1.4% of its Revenue for the period ended 31st December, 2017 from export operations. We export our products and receive sale proceeds in foreign currency denominated in USD. Changes in value of currencies with respect to the Rupee may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. As our exposures are not hedged, we are exposed to foreign currency fluctuation risk and may affect our Company’s results of operations.

31. *Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.*

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental laws and regulations, including but not limited to:

- New Gujarat Industrial Policy 2015
- The Factories Act, 1948
- Industrial Disputes Act, 1947 and Industrial Dispute (Central) Rules, 1957
- The Environment Protection Act, 1986
- The Air (Prevention and Control of Pollution) Act, 1981
- Other regulations Other regulations promulgated by the Ministry of Environment and Forests and the Pollution Control Boards of the state of Gujarat

which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our business. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted and hence the costs and management time required to comply with these requirements could be significant. Amendments to such statutes may impose additional provisions to be followed by our Company and accordingly the Company needs to incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non - compliance, other liabilities and related litigation, could adversely affect our business, prospects, financial condition and results of operations.

32. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our distribution and business network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source substantial business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

33. ***Our insurance coverage may not be adequate.***

Our Company has obtained insurance coverage in respect of certain risks. We have taken insurance policies such as Standard Fire and Special Perils Policy. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like loss of profits, losses due to terrorism, etc. Further, there can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For further details, please refer chapter titled “*Our Business*” beginning on page 127 of this Prospectus.

34. ***Our Company has certain unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.***

As on December 31, 2017, our Company has unsecured loans amounting to Rs. 131.01 lakhs from related and other parties that are repayable on demand to the relevant lender. Further, some of these loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer the chapter titled “*Financial Statements as Restated*” beginning on page 183 of this Prospectus.

35. ***Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, formulate a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios.***

As on December 31, 2017, we had a total debt of Rs. 750.76 Lakhs. We have entered into certain understandings/ arrangements for these borrowings. Some of these understandings/ arrangements contain requirements to maintain certain security margins, financial ratios and contain restrictive covenants relating to issuance of new shares, changes in capital structure, making material changes to constitutional documents, implementing any expansion scheme, incurring further indebtedness, encumbrances on, or disposal of assets and paying dividends. For further details, refer page 219 “*Financial Indebtedness*”. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled “*Financial*

Indebtedness” on page 204 of the Prospectus.

Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

36. *We have taken guarantees from Promoter and members of Promoter Group in relation to debt facilities provided to us.*

We have taken guarantees from Promoter and members of Promoter Group in relation to our secured debt facilities availed from our lenders. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition.

For more information please see the chapter titled “*Financial Indebtedness*” beginning on page 204 of this Prospectus.

37. *Our lenders have charge over our properties in respect of finance availed by us.*

We have secured our lenders by creating a charge over properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 619.75 Lakhs as on December 31, 2017. In the event, we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations.

For further information on the *Financial Indebtedness* please refer to page 232 of this Prospectus.

38. *Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 93 of this Prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue.*

We intend to use Issue Proceeds towards meeting the fund required for setting up new manufacturing facility, general corporate purpose and to meet the issue expenses. We intend to deploy the Net Issue Proceeds by financial year 2018-19 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 93 of this Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment is based on internal management estimates and has been appraised by Axis Bank Ltd. Accordingly, within the parameters as mentioned in the chapter titled ‘*Objects of the Issue*’ beginning on page 93 of this Prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue. However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However in accordance with Section 27 of the Companies Act, 2013, and relevant provisions of SEBI

ICDR Regulations, 2009, a company shall not vary the objects of the offer without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters and controlling shareholders shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

39. ***We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.***

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 93 of this Prospectus.

40. ***Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.***

Our Company has not declared any dividend in past. We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 182 of this Prospectus.

41. ***Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

42. ***The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.***

Since, the Issue size is less than Rs.10,000 lakh and as per the provisions of Regulation 16 (1)

of the SEBI ICDR Regulations, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

However, our Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However, in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances as applicable in this regard. Our Promoter and controlling shareholder shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

43. ***Our success depends largely upon the services of our Directors, Promoter and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.***

Our success is substantially dependent on the expertise and services of our Directors, Promoter and our Key Managerial Personnel (“KMP”). They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for KMP in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

44. ***In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Our Whole-time Directors (including Vijay Gupta, our Managing Director and Promoter and Priti Gupta, our Promoter) and Key Managerial Personnel (“KMP”) have interests in our Company, in addition to regular remuneration or benefits and reimbursement of expenses. Some of our Directors and KMP may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on pages 73 and 155, respectively, of this Prospectus.

45. ***Our Promoter and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.***

As on the date of this Prospectus, our Promoter and members of the Promoter Group hold 33.22% of the paid-up share capital of our Company. After completion of the Issue, our Promoter and Promoter Group will collectively own 67.63 % of the Equity Shares. As a result, our Promoter together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of

Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

46. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

47. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.*

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

48. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

49. *Industry information included in this Prospectus has been derived from industry reports commissioned by us for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although, we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no

representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus.

50. *The average cost of acquisition of Equity Shares by our Promoter is lower than the Issue price.*

Our Promoter average cost of acquisition of Equity Shares in our Company is lower than the Issue Price as decided by the Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoter in our Company and build-up of Equity Shares by our Promoter in our Company, please refer chapter title “*Capital Structure*” beginning on page 73 of this Prospectus.

51. *We have issued Equity Shares during the last 12 months at a price that are below the Issue price.*

We have issued certain Equity shares in the last twelve months at a price that are lower than the Issue price. Details of such issuances are given in the table below:

Date of Allotment	No. of Equity Shares	Issue price	Nature of allotment
September 1, 2017	31,50,000	-	Bonus Issue

For further details of equity shares issued, please refer to the section titled “*Capital Structure*” beginning on page no. 73 of the Prospectus.

ISSUE RELATED RISK

52. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue price is be based on numerous factors (For further information, please refer chapter titled “*Basis for Issue Price*” beginning on page 101 of this Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

53. ***Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.***

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

54. ***QIB and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within six Working Days from the Bid/Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

EXTERNAL RISK FACTORS

INDUSTRY RISKS

55. ***Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.***

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

OTHER RISKS

56. ***Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Prospectus.***

As stated in the reports of the Auditor included in this Prospectus under chapter "Financial Statements as restated" beginning on page 183, the financial statements included in this Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which

prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Prospectus. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Prospectus should accordingly be limited.

57. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under the Income-tax Act, 1961, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India except any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the Securities Transaction Tax (“STT”) has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of shares on a stock exchange held for a period of 12 months or less will be subject to short term capital gains tax. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, Section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to STT under Chapter VII of the Finance (No 2) Act, 2004. In this case, this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after 1st day of April 2018 if the long term capital gains exceeds Rs. 1,00,000/- p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of Rs. 1,00,000/- pa. shall be chargeable at the rate of 10%.

Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

58. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- Goods and service tax; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

59. *Financial instability in Indian financial markets could adversely affect our Company's results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

60. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The GoI has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

61. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

62. ***Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

63. ***The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.***

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

64. ***Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.***

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

65. ***Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.***

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

66. ***Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.***

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's

economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

INTRODUCTION TO INDIAN AUTOMOBILE INDUSTRY

The Indian auto industry is one of the largest in the world. The industry accounts for 7.1 per cent of the country's Gross Domestic Product (GDP). The Two Wheelers segment with 80 per cent market share is the leader of the Indian Automobile market owing to a growing middle class and a young population. Moreover, the growing interest of the companies in exploring the rural markets further aided the growth of the sector. The overall Passenger Vehicle (PV) segment has 14 per cent market share. India is also a prominent auto exporter and has strong export growth expectations for the near future. Overall automobile exports grew 15.81 per cent year-on-year between April-February 2017-18. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the 2W and Four Wheeler (4W) market in the world by 2020

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near-synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both

at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China's unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.
- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary manoeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

GLOBAL MANUFACTURING SECTOR

World Manufacturing Growth

World manufacturing production continued to grow in the fourth quarter of 2017, maintaining the upward trend that has been observed since the beginning of the year. Industrialized economies gained further strength in manufacturing production and confirmed their dynamic growth. Developing and emerging industrial economies achieved a much higher growth of manufacturing output than industrialized economies. Industrialized economies account for most of the global industrial output. The increased growth pace in these countries has a positive impact on the global economy as a whole. Signs of recovery in the manufacturing sectors of industrialized economies are likely to boost the growth prospects in developing economies. The growth trend observed in the first half of 2017 was largely maintained in the second half of the year. Steady progress over several consecutive quarters contributed to sustained global industrial growth in subsequent periods (Figure 1). Improvements in business conditions, rising consumer spending and promising investment plans are some of the driving forces behind the positive developments in global manufacturing. On the other hand, risks to global growth arising from the uncertainty of the Brexit negotiations, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated. Global manufacturing output rose by 4.7 per cent in the fourth quarter of 2017 compared to the same quarter of the previous year. This impressive gain was attributable to strong growth since the beginning of the year. The disaggregated data highlight the thriving performance of major industrialized economies with a significant share in global manufacturing output, particularly the United States, Japan, Germany, Italy as well as France.

The manufacturing output of industrialized economies has maintained strong growth rates over the last quarters. All industrialized regions, namely East Asia, Europe and North America, recorded positive growth rates and helped strengthen the overall upward trend in industrialized economies in the fourth quarter. Among the industrialized country group, Europe's manufacturing showed a strong growth rate of 4.9 per cent in the fourth quarter of 2017 compared to the same period of the previous year. It experienced the strongest growth in the last six years. An investment-led domestic upturn and rising consumer confidence further supported the expansion of demand and accelerated production in European economies. The growth rate in the eurozone countries followed the same trend as overall Europe. The disaggregated data indicated strong growth in the last quarter of 2017, when year-by-year growth figures are compared among the leading eurozone economies. Manufacturing output increased

by 5.5 per cent in Germany, 5.0 per cent in France and Spain, and 4.3 per cent in Italy. The manufacturing production in other economies of the single currency block continued to witness positive growth figures. Strong growth of over 11.5 per cent was recorded by Slovenia followed by Lithuania with 10.1 per cent, while a fairly robust rate was observed by Estonia (6.3 per cent), Austria (4.9 per cent), the Netherlands (4.9 per cent), Portugal (4.7 per cent) and Finland (4.3 per cent).

INDIAN MANUFACTURING SECTOR

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 73.70 billion during April 2000-December 2017.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Mahindra and Mahindra is planning to start operating a fleet of electric cabs and supplying parts to Electric Vehicle (EV) manufacturers.
- Grasim Industries has received clearance for expansion of its plant at Vilayat. The expansion will entail an investment of Rs 2,560 crore (US\$ 396.8 million)
- Over 350 mobile charger factories are expected to be set up in India by 2025, on the back of the government's push to encourage production of battery chargers. Setting up of these factories is expected to lead to production of 1.46 billion chargers and generation of 0.8 million jobs.
- Government of India is planning to invite bids for setting up of 20 Gigawatts (GW) of solar power capacity with the objective of boosting domestic manufacturing of solar power equipment.
- JSW Energy has signed a memorandum of understanding (MoU) with the Government of Gujarat, for setting up an electric vehicle (EV) manufacturing unit in Gujarat at an estimated cost of Rs 4,000 crore (US\$ 608.88 million).
- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.

INDIAN AUTOMOBILE INDUSTRY

Introduction

The Indian auto industry is one of the largest in the world. The industry accounts for 7.1 per cent of the country's Gross Domestic Product (GDP). The Two Wheelers segment with 80 per cent market share is the leader of the Indian Automobile market owing to a growing middle class and a young population. Moreover, the growing interest of the companies in exploring the rural markets further aided the growth of the sector. The overall Passenger Vehicle (PV) segment has 14 per cent market share.

India is also a prominent auto exporter and has strong export growth expectations for the near future. Overall automobile exports grew 15.81 per cent year-on-year between April-February 2017-18. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the 2W and Four Wheeler (4W) market in the world by 2020.

Investments

In order to keep up with the growing demand, several auto makers have started investing heavily in various segments of the industry during the last few months. The industry has attracted Foreign Direct Investment (FDI) worth US\$ 18.413 billion during the period April 2000 to December 2017, according to data released by Department of Industrial Policy and Promotion (DIPP).

Some of the recent/planned investments and developments in the automobile sector in India are as follows:

- The only electric automaker in India, Mahindra and Mahindra Ltd, has partnered with Uber for deploying its electric sedan e-Verito and hatchback e2o Plus on Uber platforms in New Delhi and Hyderabad.
- Mahindra & Mahindra (M & M) is planning to make an additional investment of Rs 500 crore (US\$ 77.23 million) for expanding the capacity for electric vehicles in its plant in Chakan.

INDIAN AUTO COMPONENTS INDUSTRY

Introduction

The Indian auto-components industry has experienced healthy growth over the last few years. Some of the factors attributable to this include: a buoyant end-user market, improved consumer sentiment and return of adequate liquidity in the financial system. The auto-component industry of India has expanded by 14.3 per cent because of strong growth in the after-market sales to reach at a level of Rs 2.92 lakh crore (US\$ 43.52 billion) in FY 2016-17.

The auto-components industry accounts for almost seven per cent of India's Gross Domestic Product (GDP) and employs as many as 25 million people, both directly and indirectly. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favourable destination for investment.

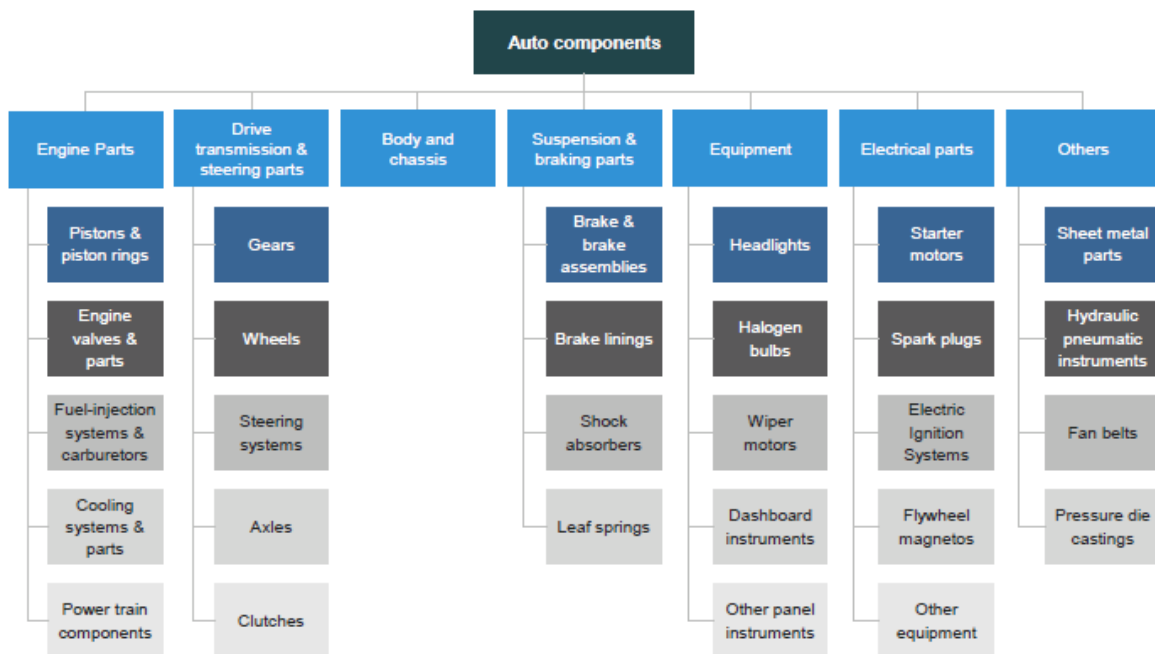

Investments

The Foreign Direct Investment (FDI) inflows into the Indian automobile industry during the period April 2000 – December 2017 were recorded at US\$ 18.41 billion, as per data by the Department of Industrial Policy and Promotion (DIPP).

Some of the recent investments made/planned in the Indian auto components sector are as follows:

- Schaeffler India, the Indian arm of Germany’s automotive and industrial parts maker, is planning to invest Rs 300 crore (US\$ 46.66 million) per annum over FY18-19.
- Major auto component firms such as Krishna Group, Minda Industries, Lumax Industries, Subros Ltd, etc are planning to invest over US\$ 233.31 million over the next 2-3 years.
- Setco Automotive is going to invest Rs 250 crore (US\$ 38.62 million) over the next two to three years for capacity expansion and modernisation.

THE AUTO COMPONENTS MARKET IS SPLIT INTO SIX PRODUCT SEGMENTS:

THE AUTO COMPONENTS SECTOR HAS RECORDED ROBUST GROWTH OVER THE YEARS

Over the last decade, the automotive components industry has registered a CAGR of 14 per cent and has scaled three times to US\$ 43.5 billion in 2016-17 while exports have grown at a CAGR of 14 per cent to US\$ 10.9 billion. The growth of global OEM sourcing from India & the increased indigenisation of global OEMs is turning the country into a preferable designing and manufacturing base. The Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports ranging between US\$ 80- US\$ 100 billion by 2026.

The auto-components industry accounts for almost seven per cent of India’s Gross Domestic Product (GDP) and employs as many as 19 million people. India is expected to become the 4th largest automobiles producer globally by 2020 after China, US & Japan. The auto components industry is also expected to become the 3rd largest in the world by 2025.

- Revenues have risen from US\$ 26.5 billion in FY08 to US\$ 43.5 billion in FY17 at a CAGR of 5.66 per cent during FY08-17.
- The market size for auto component sector increased by 11.5 per cent reaching to US\$ 43.5 billion in FY17 from US\$ 39 billion in FY16.
- As per Automobile Component Manufacturers Association (ACMA) forecasts, automobile component exports from India are expected to reach US\$ 70-billion by 2026 from US\$ 10.9 billion in FY17. The Indian auto component industry aims to achieve US\$ 200 billion in revenues by 2026.
- The industry is expected to post a 13-15 per cent growth rate in FY18, on the back of robust growth in domestic passenger vehicle, commercial vehicle, tractor and two-wheeler segments.[^]

GROWTH DRIVERS

Demand Side Drivers:

Robust growth in domestic automotive industry. Increasing investment in road infrastructure. Growth in the working population & middle class income to drive the market

Supply Side Drivers:

Competitive advantages facilitating emergence of outsourcing hub. Technological shift; focus on R&D

Policy Support:

Establishing special auto parks & virtual SEZs for auto components. Lower excise duty on specific parts of hybrid vehicles. Policies such as Automotive Mission Plan 2016-26, Faster Adoption & Manufacturing of Electric Hybrid Vehicles (FAME, April, 2015), NMEM 2020, likely to infuse growth in the auto component sector of the country.

OPPORTUNITIES IN ENGINEERING PRODUCTS

(Source: Auto Components Industry in India, India Brand Equity Foundation www.ibef.org)

FAVOURABLE POLICY MEASURES AIDING GROWTH

Auto Policy 2002

Automatic approval for 100 per cent foreign equity investment in auto component manufacturing facilities. Manufacturing & imports are exempt from licensing & approvals.

NATRIIP

Set up at a total cost of USD388.5 million to enable the industry to adopt & implement global performance standards. Focus on providing low-cost manufacturing & product development solutions.

Department of Heavy Industries & Public Enterprises

Created a USD200 million fund to modernise the auto components industry by providing an interest subsidy on loans & investment in new plants & equipment. Provided export benefits to intermediate suppliers of auto components against the Duty Free Replenishment Certificate (DFRC).

Automotive Mission Plan 2016-26 (AMP 2026)

AMP 2026 targets a 4-fold growth in the automobiles sector in India which includes the manufacturers of automobiles, auto components & tractor industry over the next 10 years. It is expected to generate an additional employment of 65 million.

Fame Scheme

The scheme is aimed at incentivising all vehicle segments i.e. 2 Wheeler, 3 Wheeler Auto, Passenger 4 Wheeler Vehicle, Light Commercial Vehicles and Buses. It covers hybrid & electric technologies

like Mild Hybrid, Strong Hybrid, Plug in Hybrid & Battery Electric Vehicles. The scheme has been extended to March 2018 from March 2017

Union Budget 2018–19

Budget 2018-19 imposed a surcharge of 10 per cent on aggregate duties of customs on imports, replacing education and secondary and higher Education Cess, which is expected to boost domestic manufacturing. Reduction of tax to 25 per cent for companies with turnover up to Rs 250 crore (US\$ 38.62 million) was also announced in Union Budget.

AUTO COMPONENTS: ADVANTAGE INDIA

Robust Demand

Growing working population & expanding middle class are expected to remain key demand drivers. India is set to break into the league of top 5 vehicle producing nations. Reduction in excise duties in motor vehicles sector to spur the demand for auto components

Export Opportunities

India is emerging as global hub for auto component sourcing. Relative to competitors, India is geographically closer to key automotive markets like the Middle East & Europe

Competitive advantages

A cost-effective manufacturing base keeps costs lower by 10-25 per cent relative to operations in Europe & Latin America. Presence of a large pool of skilled & semi-skilled workforce amidst a strong educational system. 3rd largest steel producer globally hence a cost advantage

Policy support

Continued policy support in the form of Auto Policy 2002 In September 2015, Automotive Mission Plan 2016-26 was unveiled which targets a fourfold growth for the sector. Strong support for R&D & product development by establishing NATRIP centers. 100 per cent FDI allowed under automatic route for auto component sector

SUMMARY OF OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled “*Forward-Looking Statements*” beginning on page 16 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “*Risk Factors*” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled “*Risk Factors*” and “*Financial Information*” beginning on pages 17 and 183, respectively.

OVERVIEW

Our Company was originally incorporated as "Ganga Forging Private Limited" at Ahmedabad, as a private limited company under the provisions of the Companies Act, 1956 *vide* Certificate of Incorporation dated December 29, 1988 bearing registration number 04-11694 issued by the Registrar of Companies, Gujarat. Subsequently, our Company was converted into a public limited company pursuant to a special resolution passed by our shareholders at the extraordinary general meeting held on October 5, 2017 and the name of our Company was changed to "Ganga Forging Limited". A fresh certificate of incorporation consequent upon conversion to a public limited company was issued by the Registrar of Companies, Ahmedabad on October 30, 2017. The Corporate Identification Number of our Company is U28910GJ1988PLC011694.

Originally incorporated in 1989, our Company, Ganga Forging Limited is manufacturer in forging industry and is engaged in manufacturing of closed die forged products catering to both automotive and non-automotive segment. Automotive segment include manufacturing of products catering to commercial vehicle, passenger car, three wheeler, two wheeler and tractor. Non-automotive segment include electric power transmission, dairy equipment manufacturing, agricultural, gear and gear box, crank shafts, connecting rod, heavy engineering industrial, hubs and flanges.

Our Company also complies with Quality Assurance System like ISO and strives to deliver quality products to the customers. Our Company is ISO 9001:2008 certified. We believe in manufacturing and delivering quality products and our manufacturing process is under constant supervision by Engineers. The entire system is backed by proper documentation, traceability until the end product, with full proof checks required as per ISO regulations. We are dedicated towards supply of quality products by controlling the procurement of our raw material, monitoring the process parameters and maintaining appropriate measures to comply with applicable statutory and regulatory requirements of our products.

Our Company is equipped with in-house testing laboratory for checking of our raw materials, working in process materials and finished products. Raw material purchased by us undergoes testing and quality check in our laboratory to ensure that they are of relevant quality and match the standards as specified. The finished products are checked in our laboratory to ensure that the same is of relevant standards and design as specified by the customer; the products are then packed and dispatched.

Our Company was started by Mr. Hiralal Tilva and Late Mr. Chhaganlal Patel. Later on, Mr. Rakesh Chhaganlal Patel joined the board of our Company and under their guidance we have expanded our sales and operations. Our Company doesn't market these products in our own brand name. Further, Company sell these product as a semi-finished product to the supplier who further grinds the product. Our existing manufacturing facility is equipped with 4 Drop Hammers, 2 automatic power press, 2 manual power press, 4 furnace in our forge shop. Our manufacturing facilities are well equipped with required facilities including machinery, other handling equipment to facilitate smooth manufacturing process. We endeavour to maintain safety in our premises by adhering to key safety norms.

COMPETITIVE STRENGTHS

Diversified Product portfolio

Company manufactures closed die forged products catering to automobile parts, electric power transmission parts, dairy equipment manufacturing parts, agricultural parts, gear and gear box manufacturers, crank shafts, connecting rod, heavy engineering industrial parts, hubs and flanges. With presence in most of the allied products in these industry, our Company caters to wide range of customers.

Experienced Management & Promoters

We are led by a dedicated senior management team with two decade of experience in forging manufacturing. We believe our senior management team leverages our market position and their collective experience and knowledge in the industry, to execute our business strategies and drive our future growth. In addition, we believe the strength and entrepreneurial vision of our Promoters and senior management has been instrumental in driving our growth and implementing our strategies. In addition, we have an experienced team of employees.

Healthy financial condition

Our Company has been growing operationally and the result of the same is visible in our financial position which has witnessed consistent level of growth both in revenue and profitability. Our Total Debt from Banks and FIs was at Rs. 110.00 Lakhs which is comfortably sustainable with PAT for the year ended 31st March, 2017 at Rs. 48.49 Lakhs.

BUSINESS STRATEGY

Improve and increase operational efficiencies

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater production volumes and greater sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We will also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs. We continue to focus on investing in automation, modern technology and equipment to continually upgrade our products including the quality of our products to address changing customer preferences as well as to improve operational efficiency.

Create a global presence

Currently, we export our products only to Russia. Our revenue from export operations is not contributing significantly to our revenue from operations, which is currently less than 1% of our Total Revenue. Our strategy is to expand our footprints in various countries and an increased focus in Russian markets, this will enable us larger customer base giving incremental revenue.

Conversion to automotive production line

Currently, our Company has a manufacturing capacity which is labour intensive and manually operated machineries. This leads to lower level of production and lesser efficiency. As we move forward, we understand to fight competition, we need to have an advanced manufacturing facility. To address the same, our Company plans to expand its production capacity by establishment of its second

manufacturing facility in Rajkot, which will be automotive and less dependent on manual work. Company has already imported automated hammering machine from Korea and plans to import its first press line from China.

Direct supply to OEM

Our Company currently sells products indirectly to OEMs, we sell our products to the third party distributors/suppliers who in turn sell these products to OEM's. After establishment of automated line, we intend to sell directly to OEMs which will lead to expansion in our margins and clientele.

PRODUCT RANGE

Our Company is engaged in manufacturing of closed die forged products catering to automobile parts, electric power transmission parts, dairy equipment manufacturing parts, agricultural parts, gear and gear box manufacturers, crank shafts, connecting rod, heavy engineering industrial parts, hubs and flanges.

Our products can majorly be divided as:

Name of the Product	Product Image	Description
Crank Shaft		Crankshafts are the main rotating parts of an engine that are installed on a connecting rod and can convert the reciprocating motion into rotating motion of the connecting rod.
Connecting Rod		A connecting rod is a shaft which connects a piston to a crank or crankshaft in a reciprocating engine. Together with the crank, it forms a simple mechanism that converts reciprocating motion into rotating motion.
Half Connecting Rod		A connecting rod is a shaft which connects a piston to a crank or crankshaft in a reciprocating engine. Together with the crank, it forms a simple mechanism that converts reciprocating motion into rotating motion. Half Connecting rod is in two piece rod & cap, and use in application as same as single piece connecting rod.
Yoke		A yoke is an integral component of a drive shaft assembly. The yoke allows the drive shaft assembly to flex or slip within the required application. The component is also used to allow U-joints to rotate smoothly and properly with the drive shaft.

Name of the Product	Product Image	Description
Gear		<p>A gear is a rotating machine part having cut teeth which mesh with another toothed part to transmit torque. Geared devices can change the speed, torque, and direction of a power source.</p>
Spider/Cross		<p>A Spider/Cross is part of A differential gear mechanism, which is a gear train with three shafts that has the property that the rotational speed of one shaft is the average of the speeds of the others, or a fixed multiple of that average.</p>
Flanges		<p>A flange is joint part, which used usually of two or more shafts or pipe or wherever required joint.</p>
Shaft		<p>A shaft is a rotating machine element, usually circular in cross section, which is used to transmit power from one part to another, or from a machine which produces power to a machine which absorbs power.[1] The various members such as pulleys and gears are mounted on it.</p>
Socket Clevis		<p>A socket clevis fastener is a Four-piece fastener system consisting of a clevis, clevis pin, and tang. The clevis is a U-shaped piece that has holes at the end of the prongs to accept the clevis pin and socket work as a head to hold another fixing part.</p>
Anchor Shackle		<p>A shackle is a U-shaped piece of metal secured with a clevis pin or bolt across the opening, or a hinged metal loop secured with a quick-release locking pin mechanism.</p>

SWOT ANALYSIS

Strength

- Quality production capability
- Diversification of product basket to diversified industries.
- Experienced Promoters
- Ability to meet diverse & critical market demand

Weakness

- Intense domestic competition
- High Cost and fluctuation in prices of Inputs
- Low productivity due to semi & unskilled labour
- Inadequate support from government

Opportunity

- 100% FDI will result in innovative products and technologies
- Government initiatives like GST & Make in India
- Development in non-automotive sector like railway, defense etc.
- Increase in Export

Threat

- Cheap imports from China
 - Variation in raw material quality and pricing
 - Technological changes and customer preferences
 - Pricing pressure from OEM's
-

DETAILS OF MARKET MAKING ARRANGEMENT

Our Company and the Lead Manager has entered into a tripartite agreement dated May 3, 2018, with the following Market Maker, duly registered with National Stock Exchange of India Limited to fulfil the obligations of Market Making:-

Pantomath Stock Brokers Private Limited
 406-408, Keshava Premises, Behind Family Court, Bandra Kurla Complex, Bandra (East), Mumbai 400 051, Maharashtra, India
Tel: +91 22 6194 6774
Fax: +91 22 2659 8690
Email: broking@pantomathgroup.com
Contact Person: Mahavir Toshniwal
SEBI Registration Number: INZ000068338

Pantomath Stock Brokers Private Limited, registered with Emerge Platform of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being issued by the Market Maker(s).
2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the EMERGE Platform of National Stock Exchange of India Limited and SEBI from time to time.
3. The minimum depth of the quote shall be Rs.1,00,000/-. However, the investors with holdings of value less than Rs.1,00,000/- shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs. 21/- the minimum lot size is 6000 Equity Shares thus minimum depth of the quote shall be Rs. 1,26,000/- until the same, would be revised by Emerge Platform of National Stock Exchange of India Limited.
4. The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the EMERGE Platform of National Stock Exchange of India Limited (in this case currently the minimum trading lot size is 6000 equity shares; however the same may be changed by the EMERGE Platform of National Stock Exchange of India Limited from time to time).
5. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2 way quotes.
6. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and the buy quote) shall not be more than 10% or as specified by the Stock Exchange. Further, the Market Maker (s) shall inform the exchange in advance for each and every black out period when the quotes are not being issued by the Market Maker (s).
7. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Limited may intimate the same to SEBI after due verification.
8. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
9. There would not be more than five (5) Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
10. On the first day of listing, there will be pre-equity market hours. The circuits will apply from the first day of listing on the discovered price during the pre-open call auction.
11. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated

- January 20, 2012, has laid down that for issue size up to Rs. 250 crores, the applicable price bands for the first day shall be:
- i. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - ii. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.
 - iii. Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

The Minimum Promoters' Contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI ICDR Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters' Contribution in terms of Regulation 33 of the SEBI ICDR Regulations. In connection, we confirm the following:

The Equity Shares offered for minimum 20 % Promoters' Contribution have not been acquired in the three years preceding the date of this Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;

- (a) The minimum Promoters' Contribution does not include Equity Shares acquired during the one year preceding the date of this Prospectus at a price lower than the Issue Price;
- (b) No equity shares have been issued to our promoter upon conversion of a partnership firm during the preceding one year at a price less than the issue price.
- (c) The Equity Shares held by the Promoters and offered for minimum Promoters' contribution are pledged;
- (d) All the Equity Shares of our Company held by the Promoters are in the process of being dematerialized; and
- (e) The Equity Shares offered for Promoter's Contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of its subscription in the Promoter's Contribution subject to lock-in.

iii **Details of Share Capital locked in for one year**

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the Public Issue.

iv **Other requirements in respect of lock-in:**

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI ICDR Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI ICDR Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI ICDR Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI ICDR Regulations has ended, subject to compliance with the Takeover Code, as applicable.

We further confirm that our Promoters' Contribution of 20.08% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

⁽¹⁾To be finalized on determination of the Issue Price and updated in the Prospectus prior to filing with the RoC.

To the extent our Company is unable to utilise any portion of the Net Proceeds towards the Objects, as per the estimated schedule of deployment specified above, our Company shall deploy the Net Proceeds in the subsequent Financial Years towards the Objects

Means of Finance

The setting up of closed die forging manufacturing facility will be met through the Net Proceeds to the extent of Rs. 460.12 lakhs and balance through internal accruals/ net worth. The details of the means of finance has been given as follows:

(Rs. in lakhs)

Object of the Issue	Amount Required	IPO Proceeds	Bank Finance
To finance setting up of Closed Die Forging manufacturing facility	870.12	460.12	410.00
General Corporate purposes	0.10	0.10	-
Total	870.22	460.22	410.00

The total cost of the Project of setting up of Closed Die Forging manufacturing facility is Rs. 870.12 Lakhs. The Company intends to raise Rs. 460.12 Lakhs through proceeds of IPO and by taking a term loan of Rs. 410 Lakhs from Axis Bank. Accordingly, all the documentation has been duly completed between the Company and the Axis Bank and the Bank has issued a sanction letter to the Company for the said amount vide a sanction letter dated September 7, 2017. Please note that the said amount of Rs. 410 Lakhs will be disbursed by the Axis Bank after raising of funds successfully through IPO.

Accordingly, we confirm that we are in compliance with the requirement to make firm arrangements of finance under Regulation 4(2) (g) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

APPRAISAL BY APPRAISING AGENCY

Axis Bank Limited has appraised the setting up of Closed Die Forging manufacturing facility while sanctioning the finance for the project. Further, M/s M.N. Manvar and Company, Chartered Accounts has certified the Project Report dated April 05, 2018.

The fund requirements mentioned above for setting up of closed die forging manufacturing facility is based on the internal management estimates of our Company and the appraisal and project report issued by Axis Bank Limited and M/s M.N. Manvar and Company, Chartered Accountants, respectively and have not been verified by the Lead Manager. The fund requirements are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations. The actual costs would

depend upon the negotiated prices with the suppliers/contractors and may vary from the above estimates. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds or cost overruns, our management may explore a range of options including utilising our internal accruals or seeking debt financing.

INTRODUCTION TO INDIAN AUTOMOBILE INDUSTRY

The Indian auto industry is one of the largest in the world. The industry accounts for 7.1 per cent of the country's Gross Domestic Product (GDP). The Two Wheelers segment with 80 per cent market share is the leader of the Indian Automobile market owing to a growing middle class and a young population. Moreover, the growing interest of the companies in exploring the rural markets further aided the growth of the sector. The overall Passenger Vehicle (PV) segment has 14 per cent market share. India is also a prominent auto exporter and has strong export growth expectations for the near future. Overall automobile exports grew 15.81 per cent year-on-year between April-February 2017-18. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the 2W and Four Wheeler (4W) market in the world by 2020

INTRODUCTION TO AUTO COMPONENTS INDUSTRY

The Indian auto-components industry has experienced healthy growth over the last few years. Some of the factors attributable to this include: a buoyant end-user market, improved consumer sentiment and return of adequate liquidity in the financial system. The auto-component industry of India has expanded by 14.3 per cent because of strong growth in the after-market sales to reach at a level of Rs 2.92 lakh crore (US\$ 43.52 billion) in FY 2016-17. The auto-components industry accounts for almost seven per cent of India's Gross Domestic Product (GDP) and employs as many as 25 million people, both directly and indirectly. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favourable destination for investment.

GLOBAL ECONOMIC OVERVIEW

According to the International Monetary Fund (IMF), the global economy is experiencing a near-synchronous recovery, the most broad-based since 2010. In 2017, roughly three-quarters of countries experienced improvements in their growth rates, the highest share since 2010. The latest World Economic Outlook (WEO) of the IMF shows global GDP growth accelerated to around 3.6 percent in 2017 from 3.2 percent in 2016, and the forecast for 2018 has been upgraded by 0.2 percentage points to 3.9 percent. Although rebounding, global growth is still well below levels reached in the 2000s.

One reason why the recovery has spread around the globe is that world trade in goods and services has finally emerged from its torpor, registering 4.7 percent real volume growth in 2017 compared with 2.5 percent in 2016. Another reason is that commodity producers such as Russia, Brazil, and Saudi Arabia, which for the past few years been suffering from depressed prices, have benefitted from the

upswing in demand. Commodity prices increased smartly in 2017, led by petroleum, whose price rose by 16 percent to reach \$61 per barrel by the end of the year.

Even as global growth and commodity prices have surged, inflation has remained remarkably quiescent, remaining below 2 percent in the main advanced regions. Consequently, monetary policies in the US, Eurozone and Japan have remained highly accommodative despite a strong recovery. These unusual settings—rapid growth, ultra-low interest rates—at a late stage in the economic cycle have produced the rarest of combinations: record-high high bond prices and stock market valuations, both at the same time. The consensus forecast calls for these conditions to be sustained in 2018, as companies respond to buoyant demand conditions by stepping up investment, some governments (such as the US) embark on expansionary fiscal policies, while advanced country monetary policies remain stimulative and world trade continues to grow briskly.

What are the risks? Of course, there are the usual geo-political and geo-economic risks: war in the Korean peninsula; political upheaval in the Middle East; aggressive output cuts by Saudi Arabia (and Russia) in advance of the planned listing of the Saudi Arabian oil company, Aramco, which could force oil prices even higher; a final reckoning from China's unprecedented credit surge in the form of capital controls, slowdown in growth, and a sharply depreciating currency with consequences for the global economy (Economic Survey, 2016-17, Chapter 1); and trade tensions that could lead to skirmishes, and then spiral out of control. But perhaps the main risks lie on the macro-finance front in advanced economies. These stem from three, inter-related, sources:

- Asset valuations (price-equity ratios) tend to revert to their mean. And the faster and higher they climb, especially so late in the economic cycle, the greater the risk of sharp corrections.
- Simultaneously high valuations of both bonds and equities tend to be briefly lived because they suffer from an acute tension: if future earnings and economic growth are so bright, justifying high equity prices, interest rates cannot be forever so low.
- And if interest rates rise—or if markets even sense that central banks will need to shift their stance—both bond and equity prices could correct sharply. A plausible scenario would be the following. The IMF is now forecasting that advanced country output gaps will close in 2018 for the first time since the Global Financial Crisis. As this occurs, wages would start rising, eating into profits (which would prick equity valuations); and as inflation rises in tandem, policy makers would be forced into raising rates, deflating bond valuations and further undermining share prices.

What would happen to growth if asset prices correct? Surely, the impact would be far smaller than it was in 2007-09, because advanced countries are far less vulnerable than they were a decade ago. In particular, the leverage tied to these assets is much lower, which would minimize contagious propagation; while banks are much better buffered, with higher levels of capital and core deposits, and lower levels of risky assets.

Even so, there would be some consequences. For one, a large decline in wealth would force advanced country consumers to cut back on their spending, which in turn would lead firms to curtail their investments. And if this happens, monetary and fiscal policies would have much less room for expansionary manoeuvre since interest rates are already low while government debts are high. And the political implications of yet another decline in asset prices, the second in a decade, could also be significant, with effects that are difficult to imagine.

In sum, assessing future risks hinges on two calls: interest rate policy and asset valuations. On policy, extraordinarily low rates have, to paraphrase Paul Krugman, become “an obsession in search of a justification.” Initially justified by the dislocations caused by the Global Financial Crisis, then by large output gaps, they are now defended on the grounds that inflation remains weak, even as the

slack in product and labor markets is disappearing rapidly. Will the gathering new evidence on closing output gaps and rising employment dispel that obsession?

On valuations, the prognosticator must navigate a narrow strait: steering clear of the “Cry of Wolf” trap (bond prices will finally, finally correct, having defied the prediction of correction in each of the last several years), without succumbing to the siren call of “This Time is Different” (stock valuations are sustainable this time because interest rates will remain at historic lows).

OVERVIEW OF INDIA’S ECONOMIC PERFORMANCE IN 2017-18

Economic activity

The key question going forward is whether the economy has troughed, and if so at what pace it will recover toward its medium term trend. High frequency indicators do suggest that a robust recovery is taking hold as reflected in a variety of indicators, including overall GVA, manufacturing GVA, the IIP, gross capital formation (Figure 17) and exports.

Similarly, real non-food credit growth has rebounded to 4 percent in November 2017 on a year-on-year basis, while the squeeze on real credit to industry is abating (Figure 18). Moreover, the flow of nonbank resources to the corporate sector, such as bond market borrowing and lending by NBFCs, has increased by 43 percent (April-December 2017 compared to the same period a year ago), substituting in part for weak bank credit. Rural demand, proxied by motor cycle sales, and auto sales, while not yet back to its pre-demonetization trend, are recovering (Figures 19 and 20).

Perhaps most significantly, the behaviour of manufacturing exports and imports in the second and third quarters of this fiscal year has started to reverse. The re-acceleration of export growth to 13.6 percent in the third quarter of FY2018 and deceleration of import growth to 13.1 percent, in line with global trends, suggest that the demonetization and GST effects are receding. Services export and private remittances are also rebounding (Figure 21).

On demonetization specifically, the cash-to-GDP ratio has stabilized, suggesting a return to equilibrium. The evidence is that since about June 2017 the trend in currency is identical to that pre-demonetization (Figure 22). The stabilization also permits estimation of the impact of demonetization: about Rs. 2.8 lakh Crores less cash (1.8 percent of GDP) and about Rs. 3.8 lakh Crores less high denomination notes (2.5 percent of GDP).

A final, important factor explaining the growth recovery is fiscal, which is providing a boost to aggregate demand. For reasons related to smoothening the transition, GST revenues will only be collected for 11 months, which is akin to a tax cut for consumers. Meanwhile, overall revenue expenditure growth by the central and state governments remains strong at 11.7 percent (April to November). Cyclical conditions may also lead to lower tax and non-tax revenues, which act as an automatic stabilizer.

All this said, while the direction of the indicators is positive, their level remains below potential. IIP growth (April-November 2017 over same period in the previous year) is 3.2 percent, real credit growth to industry is still in negative territory, and the growth in world trade remains less than half its level of a decade ago. Moreover, even though the cost of equity has fallen to low levels, corporates have not raised commensurate amounts of capital, suggesting that their investment plans remain modest (Box 6). In other words, the twin engines that propelled the economy's take-off in the mid-2000s – exports and investment – are continuing to run below take-off speed.

Meanwhile, developments in the agriculture sector bear monitoring. The trend acceleration in rural wages (agriculture and non-agriculture), which had occurred through much of 2016 because of increased activity on the back of a strong monsoon, seems to have decelerated beginning just before the kharif season of 2017-18 (Figure 23) but it is still greater than much of the last three years. Three crop-specific developments are evident. Sowing has been lower in both kharif and rabi, reducing the demand for labor. The acreage for kharif and rabi for 2017-18 is estimated to have declined by 6.1 percent and 0.5 percent, respectively. Pulses and oilseeds have seen an increase in sowing, but this has translated into unusually low farmgate prices (below their minimum support price, MSP), again affecting farm revenues. The so-called TOP perishables (tomatoes, onions, and potatoes) have meanwhile fluctuated between high and low prices, engendering income uncertainty for farmers.

The CSO has forecast real GDP growth for 2017-18 at 6.5 percent. However, this estimate has not fully factored in the latest developments in the third quarter, especially the greater-than-CSO-forecast exports and government contributions to demand. Accordingly, real GDP growth for 2017-18 as a whole is expected to be close to 6 3/4 percent. Given real GDP growth of 6 percent in the first half, this implies that growth in the second half would rebound to 7.5 percent, aided by favourable base effects, especially in the fourth quarter.

Average CPI inflation for the first nine months has averaged 3.2 percent and is projected to reach 3.7 percent for the year as a whole. This implies average CPI inflation in the last quarter of 5 percent, in line with the RBI's forecast. Therefore, the GDP deflator is expected to grow by 3.6 percent for 2017-18, somewhat higher than the CSO's forecast of 2.8 percent. Consequentially, nominal GDP growth is estimated at 10.5 percent, compared with the CSO's 9.5 percent estimate.

Macroeconomic indicators

After 13 months of continuously under-shooting the inflation target by an average of 130 basis points, headline inflation for the first time crossed the RBI's 4 percent target in November, posting a rate of 5.2 percent in December 2017 (Figure 24). The recent upswing in inflation stems from rising global oil prices (not all of which has been passed on to consumers), unseasonal increases in the prices of fruits and vegetables, and the 7th Pay Commission housing rent allowances, which mechanically increase inflation. Stripped of all these factors, underlying inflation has been increasing at a more modest pace, reaching 4.3 percent at end-December—in part because firms are passing the incidence of GST on to final consumers only gradually.

The current account deficit has also widened in 2017-18 and is expected to average about 1.5-2 percent of GDP for the year as a whole. The current account deficit can be split into a manufacturing trade deficit, an oil and gold deficit, a services deficit, and a remittances deficit (Figure 25). In the first half of 2017-18, the oil and gold balance has improved (smaller deficit of \$47 billion) but this has been offset by a higher trade deficit (\$18 billion) and a reduced services surplus (\$37 billion), the latter two reflecting a deterioration in the economy's competitiveness.

Despite these developments, the overall external position remains solid. The current account deficit is well below the 3 percent of GDP threshold beyond which vulnerability emerges. Meanwhile, foreign exchange reserves have reached a record level of about \$432 billion (spot and forward) at end-December 2017, well above prudent norms.

Fiscal developments

Bond yields have increased sharply (Figure 26) since August 2017, reflecting a variety of factors, including concerns that the fiscal deficit might be greater-than-budgeted, expectations of higher inflation, a rebound in activity that would narrow the output gap, and expectations of rate increases in the US. As a result, the yield curve has become unusually steep (Figure 27).

The fiscal deficit for the first eight months of 2017-18 reached 112 percent of the total for the year, far above the 89 percent norm (average of last 5 years), largely because of a shortfall in non-tax revenue, reflecting reduced dividends from government agencies and enterprises. Expenditure also progressed at a fast pace, reflecting the advancing of the budget cycle by a month which gave considerable

leeway to the spending agencies to plan in advance and start implementation early in the financial year. Partially offsetting these trends will be disinvestment receipts which are likely to exceed budget targets.

GST revenue collections are surprisingly robust given that these are early days of such a disruptive change (See Box 7). Government measures to curb black money and encourage tax formalization, including demonetization and the GST, have increased personal income tax collections substantially (excluding the securities transactions tax). From about 2 percent of GDP between 2013-14 and 2015-16, they are likely to rise to 2.3 percent of GDP in 2017-18, a historic high. Precise estimates of the government’s contribution to this improvement vary depending on the methodology used. An econometric exercise yields an estimate of Rs. 40,000 Crores over the two fiscal years of 2016-17 and 2017-18.3 Another based on comparing the difference in actual tax buoyancy in 2016-17 and 2017-18 over the previous seven-years’ average buoyancy, yields an estimate of about Rs. 65,000 Crores (both exclude the 25,000 Crores collected under the Income Disclosure Scheme and Pradhan Mantri Garib Kalyan Yojana). Thus, the sum of all government efforts increased income tax collections, thus far, between Rs. 65,000 and Rs. 90,000 Crores. These numbers imply a substantial increase in reported incomes (and hence in formalization) of about 1.5 percent to 2.3 percent of GDP.

As a result of the budget overruns, the central government’s fiscal deficit until November 2017 was Rs. 6.1 lakh crore compared to the budgeted Rs. 5.5 lakh crore. In contrast, state governments seem to be hewing closely to their targeted fiscal consolidation – in part because the centre has guaranteed them a large increase in their indirect tax take, as part of the GST agreement.

Reflecting largely fiscal developments at the centre, a pause in general government fiscal consolidation relative to 2016-17 cannot be ruled out. In addition, the measured deficit for 2017-18 will include Rs. 80,000 crore (0.5 percent of GDP) in capital provided to public sector banks. But this will not affect aggregate demand, as reflected in international accounting practice which deems such operations as financing (“below-the-line”) rather than expenditure.

In the case of borrowing by the states, markets have perhaps inadequately taken into account the fact that higher market borrowings by them does not reflect higher deficits; rather about Rs. 50,000 crore or 0.3 percent of GDP of market borrowings is due to changes in the composition of financing, away from higher cost NSSF borrowings toward lower cost market borrowings. This lack of strict correspondence between the deficit and borrowings at the central and state levels (Figure 28) is discussed in greater detail in Box 8. For general government, about Rs. 40,000 Crores represents greater market borrowings that is not due to deficits—a fact which markets apparently have not internalized.

Another factor contributing to the rise in bond yields has been stepped-up Open Market Operations (OMO) by the RBI. This amounted to a net sale of about Rs. 90,000 Crores during April-December 2017-18 (compared to a net redemption of Rs. 1.1 lakh Crores during the same period in 2016-17) to

sterilize the impact of foreign flows, themselves induced by high interest rates.

OUTLOOK FOR 2018-19

The outlook for 2018-19 will be determined by economic policy in the run-up to the next national election. If macro-economic stability is kept under control, the ongoing reforms are stabilized, and the world economy remains buoyant as today, growth could start recovering towards its medium term economic potential of at least 8 percent.

Consider the components of demand that will influence the growth outlook. The acceleration of global growth should in principle provide a solid boost to export demand. Certainly, it has done so in the past, particularly in the mid-2000s when the booming global economy allowed India to increase its exports by more than 26 percent per annum. This time, the export response to world growth has been in line with the long-term average, but below the response in the mid-2000s. Perhaps it is only a matter of time until exports start to grow at a healthy rate. Remittances are already perking up, and may revive further due to higher oil prices.

Private investment seems poised to rebound, as many of the factors exerting a drag on growth over the past year finally ease off. Translating this potential into an actual investment rebound will depend on the resolution and recapitalization process. If this process moves ahead expeditiously, stressed firms will be put in the hands of stronger ownership, allowing them to resume spending. But if resolution is delayed, so too will the return of the private cycle. And if this occurs public investment will not be able to step into the breach, since it will be constrained by the need to maintain a modicum of fiscal consolidation to head off market anxieties.

Consumption demand, meanwhile, will encounter different tugs. On the positive side, it will be helped by the likely reduction in real interest rates in 2018-19 compared to the 2017-18 average. At the same time, average oil prices are forecast by the IMF to be about 12 percent higher in 2018-19, which will crimp real incomes and spending—assuming the increase is passed on into higher prices, rather than absorbed by the budget through excise tax reductions or by the oil marketing companies. And if higher oil prices requires tighter monetary policy to meet the inflation target, real interest rates could exert a drag on consumption.

Putting all these factors together, a pick-up in growth to between 7 and 7.5 percent in 2018-19 can be forecasted, re-instating India as the world's fastest growing major economy. This forecast is subject to upside potential and downside risks. The biggest source of upside potential will be exports. If the relationship between India's exports and world growth returns to that in the boom phase, and if world growth in 2018 is as projected by the IMF, then that could add another ½ percentage point to growth. Another key determinant of growth will be the implementation of the IBC process. Here timeliness in resolution and acceptance of the IBC solutions must be a priority to kick-start private investment. The greater the delays in the early cases, the greater the risk that uncertainty will soon shroud the entire IBC process. It is also possible that expeditious resolution may require the government to provide more resources to PSBs, especially if the haircuts required are greater than previously expected, the ongoing process of asset quality recognition uncovers more stressed assets, and if new accounting standards are implemented.

Persistently high oil prices (at current levels) remain a key risk. They would affect inflation, the current account, the fiscal position and growth, and force macroeconomic policies to be tighter than otherwise. One eventuality to guard against is a classic emerging market “sudden stall” induced by sharp corrections to elevated stock prices. (Box 9 suggests that India's stock price surge is different from that in other countries but does not warrant sanguine-ness about its sustainability.) Savers, already smarting from reduced opportunities in the wake of demonetization, from depressed gold prices, and from lower nominal interest rates, would feel aggrieved, leading to calls for action. Stock

price corrections could also trigger capital outflows, especially if monetary policy unwinds less hesitantly in advanced countries and if oil prices remain high. Policy might then have to respond with higher interest rates, which could choke off the nascent recovery. The classic emerging market dilemma of reconciling the trade-off between macro-stability and growth could then play itself out.

A key policy question will be the fiscal path for the coming year. Given the imperative of establishing credibility after this year, given the improved outlook for growth (and hence narrowing of the output gap), and given the resurgence of price pressures, fiscal policy should ideally have targeted a reasonable fiscal consolidation. However, setting overly ambitious targets for consolidation—especially in a pre-election year—based on optimistic forecasts that carry a high risk of not being realized will not garner credibility either. Pragmatically steering between these extremes would suggest the following: a modest consolidation that credibly signals a return to the path of gradual but steady fiscal deficit reductions.

Against this overall economic and political background, economic management will be challenging in the coming year. If the obvious pitfalls (such as fiscal expansion) are avoided and the looming risks are averted that would be no mean achievement.

GLOBAL MANUFACTURING SECTOR

World Manufacturing Growth

World manufacturing production continued to grow in the fourth quarter of 2017, maintaining the upward trend that has been observed since the beginning of the year. Industrialized economies gained further strength in manufacturing production and confirmed their dynamic growth. Developing and emerging industrial economies achieved a much higher growth of manufacturing output than industrialized economies. Industrialized economies account for most of the global industrial output. The increased growth pace in these countries has a positive impact on the global economy as a whole. Signs of recovery in the manufacturing sectors of industrialized economies are likely to boost the growth prospects in developing economies. The growth trend observed in the first half of 2017 was largely maintained in the second half of the year. Steady progress over several consecutive quarters contributed to sustained global industrial growth in subsequent periods (Figure 1). Improvements in business conditions, rising consumer spending and promising investment plans are some of the driving forces behind the positive developments in global manufacturing. On the other hand, risks to global growth arising from the uncertainty of the Brexit negotiations, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated. Global manufacturing output rose by 4.7 per cent in the fourth quarter of 2017 compared to the same quarter of the previous year. This impressive gain was attributable to strong growth since the beginning of the year. The disaggregated data highlight the thriving performance of major industrialized economies with a significant share in global manufacturing output, particularly the United States, Japan, Germany, Italy as well as France.

Industrialized economies as a whole registered a relatively high growth rate of 3.5 per cent in the fourth quarter of 2017 compared to the same period of 2016. This was the highest growth performance of manufacturing output in a year-by-year comparison in the post-crisis period. Such growth was attributable to Europe’s dynamic recovery, which recorded a 4.9 per cent growth rate. At the same time, the manufacturing output in the North America region rose by 2.6 per cent compared to the fourth quarter of 2016. An impressive growth rate was also observed in East Asia’s industrialized economies, which had a very positive impact on the overall manufacturing growth of industrialized countries. The manufacturing output of these economies increased by 3.2 per cent in the last quarter of 2017. The manufacturing output of developing and emerging industrial economies increased by 6.1 per cent in the fourth quarter of 2017 in comparison to the same period of the previous year. The growth rate was slightly down from 6.3 per cent of the previous quarter. Asia’s developing economies recorded a high growth rate of 6.5 per cent in the fourth quarter. China, the world’s largest manufacturer, contributed most to Asian economies’ growth. Latin America continued its recovery from the third quarter of 2017 in a year-by-year comparison. Brazil’s economy has had a considerable impact on Latin America’s recovery in the fourth quarter. The region experienced positive growth of 0.7 per cent compared to the previous quarter. Growth estimates based on limited data showed positive growth for Africa’s manufacturing output. The growth of manufacturing production was observed across all industrialized and developing regions in the last quarter of 2017 compared to the same period of the previous year, which confirms the sustained recovery of manufacturing production both in advanced and in emerging economies.

The manufacturing output of industrialized economies has maintained strong growth rates over the last quarters. All industrialized regions, namely East Asia, Europe and North America, recorded positive growth rates and helped strengthen the overall upward trend in industrialized economies in the fourth quarter. Among the industrialized country group, Europe’s manufacturing showed a strong growth rate of 4.9 per cent in the fourth quarter of 2017 compared to the same period of the previous year. It experienced the strongest growth in the last six years. An investment-led domestic upturn and rising consumer confidence further supported the expansion of demand and accelerated production in European economies. The growth rate in the eurozone countries followed the same trend as overall Europe. The disaggregated data indicated strong growth in the last quarter of 2017, when year-by-year growth figures are compared among the leading eurozone economies. Manufacturing output increased by 5.5 per cent in Germany, 5.0 per cent in France and Spain, and 4.3 per cent in Italy. The manufacturing production in other economies of the single currency block continued to witness positive growth figures. Strong growth of over 11.5 per cent was recorded by Slovenia followed by Lithuania with 10.1 per cent, while a fairly robust rate was observed by Estonia (6.3 per cent), Austria (4.9 per cent), the Netherlands (4.9 per cent), Portugal (4.7 per cent) and Finland (4.3 per cent).

Industrialized economies

The manufacturing output of industrialized economies has followed a progressively improving upward trend over the last quarters. All industrialized regions, namely Europe, North America and East Asia, were characterized by robust dynamics in the third quarter and took a step towards a steady future. The latest data revealed an acceleration of growth in the manufacturing sector of European economies during the third quarter of 2017 in a year-by-year comparison, beating expectations. Improved business and consumer confidence complemented by strong domestic and external demand resulted in new business and export orders. All of these factors provide tremendous opportunities to investors and signal that Europe's manufacturing sector is gradually stabilizing.

Taking a closer look at specific numbers, Europe's manufacturing sector as a whole stepped up production by 4.0 per cent in the third quarter of 2017, while the growth rate in the Eurozone countries increased by 3.9 per cent compared to the same period of the previous year. In both cases, the result meant a 1.0 per cent jump from the previous quarter's results

The major economies of the Eurozone recorded strong growth in the third quarter of 2017. Manufacturing output rose by 4.6 per cent in Germany, 3.8 per cent in Italy and 2.8 per cent in France comparing year-to-year developments. Spain, another leading Eurozone economy, achieved a 3.3 per cent growth rate. The manufacturing output of other economies of the single currency block seemingly remained healthy in the third quarter and continued on the trajectory of continuous improvement. The highest growth of over 8.0 per cent was observed in Slovenia and Lithuania.

Among other economies, manufacturing output grew by 5.8 per cent in Austria, 4.7 per cent in Belgium, 5.2 per cent in Portugal and 3.8 per cent in Slovakia. Among individual economies beyond the euro zone, the Swiss manufacturing sector experienced the strongest increase in the last 10 years and expanded sharply by 8.7 per cent compared to the same period of the previous year. The rapid surge from an upwardly revised 3.3 per cent gain in the previous quarter was primarily boosted by the manufacturing of pharmaceuticals and of computer, electronic and optical products. The manufacturing output in the United Kingdom rose by 2.7 per cent compared to the same period of the previous year. Another exceptionally positive result was observed in Sweden with a 5.8 per cent growth rate. Higher growth rates above 5.0 per cent were also observed in Czech and Hungary.

North America's overall manufacturing growth was lower than in other industrialized regions at 1.4 per cent. The United States' manufacturers have recently picked up as the dollar dropped in value, making U.S. goods cheaper in foreign markets and boosting exports. However, a 1.2 per cent growth in the U.S.' total manufacturing production in the third quarter of 2017 represents a slight slowdown, given the performance of the U.S.' manufacturing sector in the second quarter. A solid performance was witnessed in Canadian manufacturing, where production expanded by 3.2 per cent.

Strong global growth continued to drive manufacturing activity in industrialized East Asian economies during the third quarter, leading the manufacturing production to expand by 4.5 per cent. Japan's manufacturing output rose by 4.7 per cent compared to the same period of the previous year. Despite the slightly lower figure in the third quarter, Japan has maintained an uninterrupted period of high growth for several consecutive quarters. Growth momentum strengthened in Malaysia, where manufacturing output recorded a 7.0 per cent increase in the third quarter of 2017. A particularly strong two-digit growth rate was observed in Singapore, while the Republic of Korea and Taiwan, Province of China's manufacturing production expanded only moderately by 1.4 per cent and 3.3 per cent, respectively.

The manufacturing recovery in Russia remained largely on track in the third quarter of 2017, with a nearly 1.0 per cent expansion recorded on a year-to-year basis. A similar growth rate was also

observed in Norway which further reduced its contraction rate.

Developing and Emerging Industrial Economies

In the fourth quarter of 2017, overall manufacturing growth in developing and emerging industrial regions remained strong at 6.1 per cent (Figure 3). Latin America continued to recover from its downturn in 2016. Brazil's manufacturing sector, which suffered considerable losses a year ago, largely recovered during 2017. In the last quarter of 2017, Brazil's manufacturing output rose by 6.5 per cent. Impressive growth was also observed in Argentina and Mexico, however, negative growth prevailed in Ecuador, Peru, Uruguay and Colombia. Manufacturing growth was largely stable and high in Asian economies.

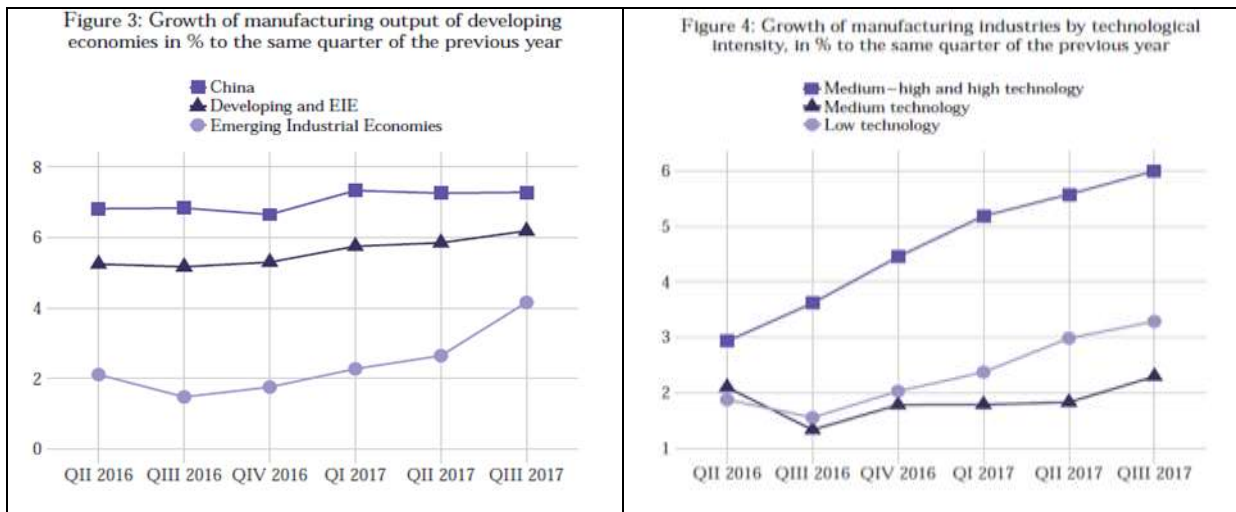

China remained high at 6.7 per cent. The overall growth of manufacturing output in Asia and the Pacific region was recorded at a rate of 6.5 per cent. Manufacturing output rose by 13.4 per cent in Mongolia and 4.3 per cent in Indonesia. Similarly, Sri Lanka and Pakistan achieved 4.1 per cent and 2.4 per cent growth in manufacturing output, respectively. India's manufacturing output rose by 4.7 per cent, indicating a clear recovery of the sector after the sluggish growth in several previous quarters. Growth estimates based on limited data for African countries indicated a rise in manufacturing output in several countries. The manufacturing output of South Africa, the largest economy of Africa, rose by 2.0 per cent. A similarly positive growth rate was observed in Cote d'Ivoire, Egypt, Morocco and Senegal. The manufacturing production of Nigeria dropped to 2.1 per cent. Eastern European developing countries maintained the stable growth of manufacturing output. A strong growth rate of 13.1 per cent was recorded in Cyprus, 12.9 per cent in Romania and 12.2 per cent in Moldova, attributable in particular to high growth rates in the production of electrical equipment in those countries. Looking at the other countries in the region, the manufacturing sector also expanded by over 7 per cent in Turkey, Bosnia and Herzegovina, Belarus and Latvia

Findings by Industry Groups

Global manufacturing production maintained a positive growth rate in nearly all industries in the fourth quarter of 2017. Advanced manufacturing such as automation, robotics and digitalization have been steadily expanding at the global level. Structural change represented by shifting from low technology to high technology manufacturing industries plays a key role in promoting innovation in the long term. Investment in new technology is a key component in the generation of innovation shaping the future of manufacturing in both advanced and emerging economies. The medium-high and high-technology industries witnessed solid high growth rates leading to an increase in high value goods and a high level of consumer confidence (Figure 4). UNIDO data largely support this pro-technology approach. Globally, medium-high and high technology manufacturing continued to outperform other industry groups, increasing the year-by-year growth rate to 6.0 per cent in the fourth quarter of 2017. This was largely driven by strong growth rates of over 9 per cent in China and Eastern European developing countries. At the same time, the average growth of medium-high and high-technology manufacturing was considerably lower in African as well as East Asian economies at around 0.7 per cent and 2.0 per cent, respectively. Growth of manufacturing industries by technological intensity, in % to the same quarter of the previous year Overall, the highest growth rate of 9.1 per cent was registered in the production of machinery and equipment, continuing the upward trajectory of the industry over the past couple of years. Growth in the production of capital goods indicated rising consumer confidence in the purchase of durable goods. The manufacturing of computer, electronic and optical products also maintained a steady growth rate of 7.8 per cent. The production of basic pharmaceutical products and pharmaceutical preparations expanded at 5.8 per cent

compared to the fourth quarter of 2016. Figure 5 shows that the highest growth rates in these industries were attained by developing and emerging industrial economies.

Medium-technology manufacturing industries recorded a growth rate of 2.7 per cent worldwide in the fourth quarter in a year-by-year comparison. The global manufacturing of rubber and plastic products grew by 4.2 per cent compared to the same quarter in the previous year, followed by the manufacturing of non-metallic mineral products, reaching a growth rate of 2.7 per cent. The manufacturing of basic metals retained a moderate pace of a 1.7 per cent at the global level. The year-by-year growth of low-technology manufacturing industries remained stable at 3.4 per cent in the last quarter of 2017. The strongest growth in this sector occurred in developing countries in Eastern Europe, reaching 6.5 per cent, as well as in the Asia and Pacific region, where a 5.4 per cent growth rate was observed. Global growth in the low-technology manufacturing sector was largely driven by greater output in the production of fabricated metal products of 5.1 per cent, in particular in Eastern Europe. This was followed by the expansion of the manufacturing of basic consumer goods: The industries for food products and beverages grew by 4.5 per cent and 3.7 per cent, respectively. The manufacturing of leather as well as wood products also performed well, both industries growing by 4.0 per cent compared to the fourth quarter of 2016. (Figure 5).

INDIAN MANUFACTURING SECTOR

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020*.

Market Size

The Gross Value Added (GVA) at basic current prices from the manufacturing sector in India grew at a CAGR of 4.34 per cent during FY12 and FY18 as per the second advance estimates of annual national income published by the Government of India. Quarterly GVA at basic prices from manufacturing sector grew by 10.92 per cent in the third quarter of FY18. Under the Make in India initiative, the Government of India aims to increase the share of the manufacturing sector to the gross domestic product (GDP) to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

Cumulative Foreign Direct Investment (FDI) in India's manufacturing sector reached US\$ 73.70 billion during April 2000-December 2017.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Mahindra and Mahindra is planning to start operating a fleet of electric cabs and supplying parts to Electric Vehicle (EV) manufacturers.
- Grasim Industries has received clearance for expansion of its plant at Vilayat. The expansion will entail an investment of Rs 2,560 crore (US\$ 396.8 million)
- Over 350 mobile charger factories are expected to be set up in India by 2025, on the back of the government's push to encourage production of battery chargers. Setting up of these factories is expected to lead to production of 1.46 billion chargers and generation of 0.8 million jobs.
- Government of India is planning to invite bids for setting up of 20 Gigawatts (GW) of solar power capacity with the objective of boosting domestic manufacturing of solar power equipment.
- JSW Energy has signed a memorandum of understanding (MoU) with the Government of Gujarat, for setting up an electric vehicle (EV) manufacturing unit in Gujarat at an estimated cost of Rs 4,000 crore (US\$ 608.88 million).
- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.

Government Initiatives

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- As of March 2018, Government of India is in the process of coming up with a new industrial policy which envisions development of a globally competitive Indian industry.
- The government has introduced two new World Bank assisted projects viz. SANKALP scheme and STRIVE scheme for skill development in the country.
- In Union Budget 2018-19, the Government of India reduced the income tax rate to 25 per cent for all companies having a turnover of up to Rs 250 crore (US\$ 38.75 million).
- Under the Mid-Term Review of Foreign Trade Policy (2015-20), the Government of India increased export incentives available to labour intensive MSME sectors by 2 per cent.
- The Ministry of Electronics and Information Technology is in the process of formulation of a new electronics manufacturing policy. The aim of the new policy will be to create an ecosystem of manufacturing in the country, enable India to become a significant global player in some of these categories.
- Ministry of Home Affairs liberalised Arms Rules to boost ‘Make in India’ manufacturing policy of the government. The liberalisation of the policy is expected to encourage investment in the manufacturing of arms and ammunition and weapon systems and promote employment generation.
- The Government of India has launched a phased manufacturing programme (PMP) aimed at adding more smartphone components under the Make in India initiative thereby giving a push to the domestic manufacturing of mobile handsets.
- The Government of India is in talks with stakeholders to further ease foreign direct investment (FDI) in defence under the automatic route to 51 per cent from the current 49 per cent, in order to give a boost to the Make in India initiative and to generate employment.
- The Ministry of Defence, Government of India, approved the “Strategic Partnership” model which will enable private companies to tie up with foreign players for manufacturing submarines, fighter jets, helicopters and armoured vehicles.
- The Union Cabinet has approved the Modified Special Incentive Package Scheme (M-SIPS) in which, proposals will be accepted till December 2018 or up to an incentive commitment limit of Rs 10,000 crore (US\$ 1.5 billion).

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the Goods and Services Tax (GST) will make India a common market with a GDP of US\$ 2.5 trillion along with a population of 1.32 billion people, which will be a big draw for investors.

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and

developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INDIAN AUTOMOBILE INDUSTRY

Introduction

The Indian auto industry is one of the largest in the world. The industry accounts for 7.1 per cent of the country's Gross Domestic Product (GDP). The Two Wheelers segment with 80 per cent market share is the leader of the Indian Automobile market owing to a growing middle class and a young population. Moreover, the growing interest of the companies in exploring the rural markets further aided the growth of the sector. The overall Passenger Vehicle (PV) segment has 14 per cent market share.

India is also a prominent auto exporter and has strong export growth expectations for the near future. Overall automobile exports grew 15.81 per cent year-on-year between April-February 2017-18. In addition, several initiatives by the Government of India and the major automobile players in the Indian market are expected to make India a leader in the 2W and Four Wheeler (4W) market in the world by 2020.

Market Size

Production of passenger vehicles, commercial vehicles, three wheelers and two wheelers grew at 14.41 per cent year-on-year between April-February 2017-18 to 26,402,671 vehicles.

The auto industry is set to witness major changes in the form of electric vehicles (EVs), shared mobility, Bharat Stage-VI emission and safety norms. Electric cars in India are expected to get new green number plates and may also get free parking for three years along with toll waivers@. India's electric vehicle (EV) sales increased to 25,000 units during FY 2016-17 and are poised to rise further on the back of cheaper energy storage costs and the Government of India's vision to see six million electric and hybrid vehicles in India by 2020.

Investments

In order to keep up with the growing demand, several auto makers have started investing heavily in various segments of the industry during the last few months. The industry has attracted Foreign Direct Investment (FDI) worth US\$ 18.413 billion during the period April 2000 to December 2017, according to data released by Department of Industrial Policy and Promotion (DIPP).

Some of the recent/planned investments and developments in the automobile sector in India are as follows:

- The only electric automaker in India, Mahindra and Mahindra Ltd, has partnered with Uber for deploying its electric sedan e-Verito and hatchback e2o Plus on Uber platforms in New Delhi and Hyderabad.
- Mahindra & Mahindra (M & M) is planning to make an additional investment of Rs 500 crore (US\$ 77.23 million) for expanding the capacity for electric vehicles in its plant in Chakan.

Government Initiatives

The Government of India encourages foreign investment in the automobile sector and allows 100 per cent FDI under the automatic route.

Some of the recent initiatives taken by the Government of India are –

- The Government of Karnataka is going to obtain electric vehicles under FAME Scheme and set up charging infrastructure across Bengaluru, according to Mr R V Deshpande, Minister for Large and Medium Industries of Karnataka.
- The Ministry of Heavy Industries, Government of India has shortlisted 11 cities in the country for introduction of electric vehicles (EVs) in their public transport systems under the FAME (Faster Adoption and Manufacturing of (Hybrid) and Electric Vehicles in India) scheme.
- Energy Efficiency Services Limited (EESL), under Ministry for Power and New and Renewable Energy, Government of India, is planning to procure 10,000 e-vehicles via demand aggregation, and has already awarded contracts to Tata Motors Ltd for 250 e-cars and to Mahindra and Mahindra for 150 e-cars.
- The government is planning to set up a committee to develop an institutional framework on large-scale adoption of electric vehicles in India as a viable clean energy mode, especially for shared mass transport, to help bring down pollution level in major cities.

Road Ahead

The automobile industry is supported by various factors such as availability of skilled labour at low cost, robust R&D centres and low cost steel production. The industry also provides great opportunities for investment and direct and indirect employment to skilled and unskilled labour.

The Indian automotive aftermarket is estimated to grow at around 10-15 per cent to reach US\$ 16.5 billion by 2021 from around US\$ 7 billion in 2016. It has the potential to generate up to US\$ 300 billion in annual revenue by 2026, create 65 million additional jobs and contribute over 12 per cent to India's Gross Domestic Product#.

INDIAN AUTO COMPONENTS INDUSTRY

Introduction

The Indian auto-components industry has experienced healthy growth over the last few years. Some of the factors attributable to this include: a buoyant end-user market, improved consumer sentiment and return of adequate liquidity in the financial system. The auto-component industry of India has expanded by 14.3 per cent because of strong growth in the after-market sales to reach at a level of Rs 2.92 lakh crore (US\$ 43.52 billion) in FY 2016-17.

The auto-components industry accounts for almost seven per cent of India's Gross Domestic Product (GDP) and employs as many as 25 million people, both directly and indirectly. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development

in infrastructure have made India a favourable destination for investment.

Market Size

The Indian auto-components industry can be broadly classified into the organised and unorganised sectors. The organised sector caters to the Original Equipment Manufacturers (OEMs) and consists of high-value precision instruments while the unorganised sector comprises low-valued products and caters mostly to the aftermarket category.

The total value of India's automotive aftermarket stood at Rs 56,098 Crore (US\$ 8.4 billion) in FY 2016-17 and exports were at Rs 73,128 crore (US\$ 10.9 billion) as compared Rs 70,916 crore (\$10.8 billion) in the year 2015-16, up by 3.1 per cent whereas imports in the year 2016-17 has decreased from Rs 90,662 crore (US\$ 13.5 billion) to Rs 90,571 crore (US\$13.81 billion), down by 0.1 per cent. This has been driven by strong growth in the domestic market and increasing globalisation (including exports) of several Indian suppliers.

The Indian automotive aftermarket is expected to grow at a CAGR of 10.5 per cent and reach Rs 75,705 crore (US\$ 13 billion) by the year 2019-20, according to the Automotive Component Manufacturers Association of India (ACMA). These estimates are in sync with the targets of the Automotive Mission Plan (AMP) 2016-26. The Indian Auto Component industry is expected to grow by 8-10 per cent in FY 2017-18, based on higher localisation by Original Equipment Manufacturers (OEM), higher component content per vehicle, and rising exports from India, as per ICRA Limited.

According to the Automotive Component Manufacturers Association of India (ACMA), the Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports ranging between US\$ 80- US\$ 100 billion by 2026, from the current US\$ 11.2 billion.

Investments

The Foreign Direct Investment (FDI) inflows into the Indian automobile industry during the period April 2000 – December 2017 were recorded at US\$ 18.41 billion, as per data by the Department of Industrial Policy and Promotion (DIPP).

Some of the recent investments made/planned in the Indian auto components sector are as follows:

- Schaeffler India, the Indian arm of Germany's automotive and industrial parts maker, is planning to invest Rs 300 crore (US\$ 46.66 million) per annum over FY18-19.
- Major auto component firms such as Krishna Group, Minda Industries, Lumax Industries, Subros Ltd, etc are planning to invest over US\$ 233.31 million over the next 2-3 years.
- Setco Automotive is going to invest Rs 250 crore (US\$ 38.62 million) over the next two to three years for capacity expansion and modernisation.

Government Initiatives

The Government of India's Automotive Mission Plan (AMP) 2006–2016 has come a long way in ensuring growth for the sector. Indian Automobile industry is expected to achieve a turnover of \$300 billion by the year 2026 and will grow at a rate of CAGR 15 per cent from its current revenue of \$74 billion.

Government has drafted Automotive Mission Plan (AMP) 2016-26 which will help the automobile industry to grow and will benefit Indian economy in the following ways:-

- Contribution of auto industry in the country's GDP will rise to 13 per cent, currently which is less than 10 per cent
- More than 100 million jobs will be created in the economy
- Companies will invest around US \$80 billion as a part of their capital expenditure.
- End of life Policy will be implemented for old vehicles

Some of the other government initiatives are listed below:

- Electric cars in India are expected to get new green number plates and may also get free parking for three years along with toll waivers.#
- The Ministry of Heavy Industries, Government of India has shortlisted 11 cities in the country for introduction of electric vehicles (EVs) in their public transport systems under the FAME (Faster Adoption and Manufacturing of (Hybrid) and Electric Vehicles in India) scheme.

Road Ahead

The rapidly globalising world is opening up newer avenues for the transportation industry, especially while it makes a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who would need to adapt to the change via systematic research and development.

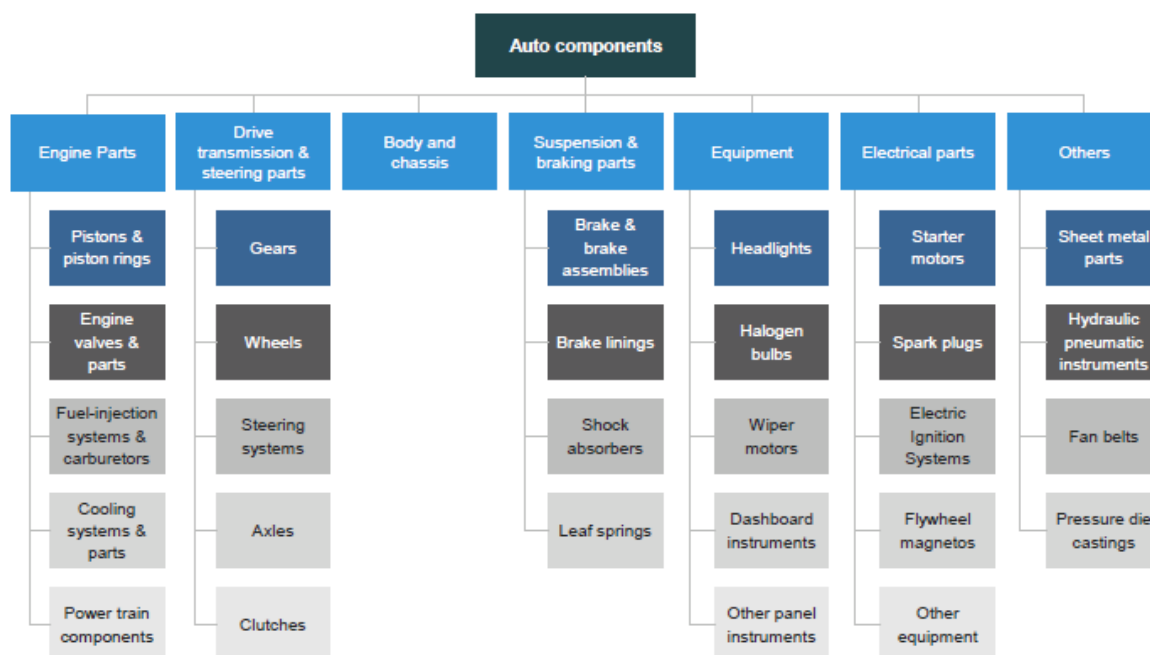

The Indian auto-components industry is set to become the third largest in the world by 2025 Indian auto-component makers are well positioned to benefit from the globalisation of the sector as exports potential could be increased by up to four times to US\$ 40 billion by 2020.

(Source: Auto Components Industry in India, India Brand Equity Foundation www.ibef.org)

THE AUTO COMPONENTS SECTOR HAS RECORDED ROBUST GROWTH OVER THE YEARS

Over the last decade, the automotive components industry has registered a CAGR of 14 per cent and has scaled three times to US\$ 43.5 billion in 2016-17 while exports have grown at a CAGR of 14 per

cent to US\$ 10.9 billion. The growth of global OEM sourcing from India & the increased indigenisation of global OEMs is turning the country into a preferable designing and manufacturing base. The Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports ranging between US\$ 80- US\$ 100 billion by 2026.

The auto-components industry accounts for almost seven per cent of India's Gross Domestic Product (GDP) and employs as many as 19 million people. India is expected to become the 4th largest automobiles producer globally by 2020 after China, US & Japan. The auto components industry is also expected to become the 3rd largest in the world by 2025.

- Revenues have risen from US\$ 26.5 billion in FY08 to US\$ 43.5 billion in FY17 at a CAGR of 5.66 per cent during FY08-17.
- The market size for auto component sector increased by 11.5 per cent reaching to US\$ 43.5 billion in FY17 from US\$ 39 billion in FY16.
- As per Automobile Component Manufacturers Association (ACMA) forecasts, automobile component exports from India are expected to reach US\$ 70-billion by 2026 from US\$ 10.9 billion in FY17. The Indian auto component industry aims to achieve US\$ 200 billion in revenues by 2026.
- The industry is expected to post a 13-15 per cent growth rate in FY18, on the back of robust growth in domestic passenger vehicle, commercial vehicle, tractor and two-wheeler segments.[^]

GROWTH DRIVERS

Demand Side Drivers:

Robust growth in domestic automotive industry. Increasing investment in road infrastructure. Growth in the working population & middle class income to drive the market

Supply Side Drivers:

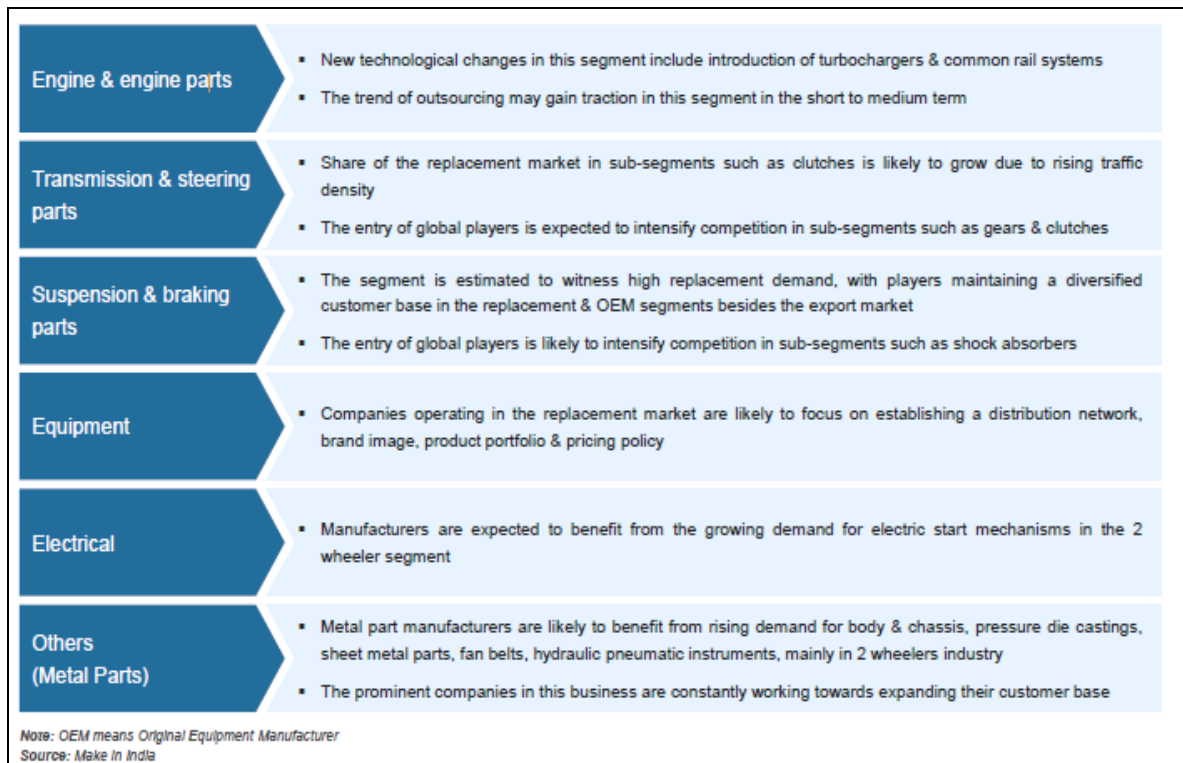

Competitive advantages facilitating emergence of outsourcing hub. Technological shift; focus on R&D

Policy Support:

Establishing special auto parks & virtual SEZs for auto components. Lower excise duty on specific parts of hybrid vehicles. Policies such as Automotive Mission Plan 2016-26, Faster Adoption & Manufacturing of Electric Hybrid Vehicles (FAME, April, 2015), NMEM 2020, likely to infuse growth in the auto component sector of the country.

OPPORTUNITIES IN ENGINEERING PRODUCTS

(Source: Auto Components Industry in India, India Brand Equity Foundation www.ibef.org)

FAVOURABLE POLICY MEASURES AIDING GROWTH

Auto Policy 2002

Automatic approval for 100 per cent foreign equity investment in auto component manufacturing facilities. Manufacturing & imports are exempt from licensing & approvals.

NATRIIP

Set up at a total cost of USD388.5 million to enable the industry to adopt & implement global performance standards. Focus on providing low-cost manufacturing & product development solutions.

Department of Heavy Industries & Public Enterprises

Created a USD200 million fund to modernise the auto components industry by providing an interest subsidy on loans & investment in new plants & equipment. Provided export benefits to intermediate suppliers of auto components against the Duty Free Replenishment Certificate (DFRC).

Automotive Mission Plan 2016-26 (AMP 2026)

AMP 2026 targets a 4-fold growth in the automobiles sector in India which includes the manufacturers of automobiles, auto components & tractor industry over the next 10 years. It is expected to generate an additional employment of 65 million.

Fame Scheme

The scheme is aimed at incentivising all vehicle segments i.e. 2 Wheeler, 3 Wheeler Auto, Passenger 4 Wheeler Vehicle, Light Commercial Vehicles and Buses. It covers hybrid & electric technologies like Mild Hybrid, Strong Hybrid, Plug in Hybrid & Battery Electric Vehicles. The scheme has been extended to March 2018 from March 2017

Union Budget 2018–19

Budget 2018-19 imposed a surcharge of 10 per cent on aggregate duties of customs on imports, replacing education and secondary and higher Education Cess, which is expected to boost domestic manufacturing. Reduction of tax to 25 per cent for companies with turnover up to Rs 250 crore (US\$ 38.62 million) was also announced in Union Budget.

AUTO COMPONENTS: ADVANTAGE INDIA

Robust Demand

Growing working population & expanding middle class are expected to remain key demand drivers. India is set to break into the league of top 5 vehicle producing nations. Reduction in excise duties in motor vehicles sector to spur the demand for auto components

Export Opportunities

India is emerging as global hub for auto component sourcing. Relative to competitors, India is geographically closer to key automotive markets like the Middle East & Europe

Competitive advantages

A cost-effective manufacturing base keeps costs lower by 10-25 per cent relative to operations in Europe & Latin America. Presence of a large pool of skilled & semi-skilled workforce amidst a strong educational system. 3rd largest steel producer globally hence a cost advantage

Policy support

Continued policy support in the form of Auto Policy 2002 In September 2015, Automotive Mission Plan 2016-26 was unveiled which targets a fourfold growth for the sector. Strong support for R&D & product development by establishing NATRIP centers. 100 per cent FDI allowed under automatic route for auto component sector

The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled “*Risk Factors*” and “*Financial Information*” beginning on pages 17 and 183, respectively.

OVERVIEW

Our Company was originally incorporated as "Ganga Forging Private Limited" at Ahmedabad, as a private limited company under the provisions of the Companies Act, 1956 *vide* Certificate of Incorporation dated December 29, 1988 bearing registration number 04-11694 issued by the Registrar of Companies, Gujarat. Subsequently, our Company was converted into a public limited company pursuant to a special resolution passed by our shareholders at the extraordinary general meeting held on October 5, 2017 and the name of our Company was changed to "Ganga Forging Limited". A fresh certificate of incorporation consequent upon conversion to a public limited company was issued by the Registrar of Companies, Ahmedabad on October 30, 2017. The Corporate Identification Number of our Company is U28910GJ1988PLC011694.

Originally incorporated in 1989, our Company, Ganga Forging Limited is manufacturer in forging industry and is engaged in manufacturing of closed die forged products catering to both automotive and non-automotive segment. Automotive segment include manufacturing of products catering to commercial vehicle, passenger car, three wheeler, two wheeler and tractor. Non-automotive segment include electric power transmission, dairy equipment manufacturing, agricultural, gear and gear box, crank shafts, connecting rod, heavy engineering industrial, hubs and flanges.

Our Company also complies with Quality Assurance System like ISO and strives to deliver quality products to the customers. Our Company is ISO 9001:2008 certified. We believe in manufacturing and delivering quality products and our manufacturing process is under constant supervision by Engineers. The entire system is backed by proper documentation, traceability until the end product, with full proof checks required as per ISO regulations. We are dedicated towards supply of quality products by controlling the procurement of our raw material, monitoring the process parameters and maintaining appropriate measures to comply with applicable statutory and regulatory requirements of our products.

Our Company is equipped with in-house testing laboratory for checking of our raw materials, working in process materials and finished products. Raw material purchased by us undergoes testing and quality check in our laboratory to ensure that they are of relevant quality and match the standards as specified. The finished products are checked in our laboratory to ensure that the same is of relevant standards and design as specified by the customer; the products are then packed and dispatched.

Our Company was started by Mr. Hiralal Tilva and Late Mr. Chhaganlal Patel. Later on, Mr. Rakesh

Chhaganlal Patel joined the board of our Company and under their guidance we have expanded our sales and operations. Our Company doesn't market these products in our own brand name. Further, Company sell these product as a semi-finished product to the supplier who further grinds the product. Our existing manufacturing facility is equipped with 4 Drop Hammers, 2 automatic power press, 2 manual power press, 4 furnace in our forge shop. Our manufacturing facilities are well equipped with required facilities including machinery, other handling equipment to facilitate smooth manufacturing process. We endeavour to maintain safety in our premises by adhering to key safety norms.

Our Company is planning to set-up a new manufacturing unit for expanding its business of manufacturing of closed die forging items.

For further details of the proposed facility, please refer to chapter titled – “*Objects of the Issue*” beginning Page 93 of this Prospectus.

Location

Survey No. 55/1, Paiki 6/Paiki 1st Vill. Pipalia, Tal: Gondal, Dist – Rajkot, Gujarat

Plant Capacity

Company is planning to have an annual capacity of 2,400 mt in its new manufacturing facility.

Raw Material

Major raw material requirement would be - (a) Low Carbon steel, (b) Medium Carbon Steel, (c) Alloy Steel, (d) Stainless Steel for manufacturing, etc.

Raw materials will be procured from steel mills in form of cast billets, rolled billets, etc. in various sizes as per the requirement of the final products.

Power

Company is expected to consume 1,000 Kwa of Power in its new manufacturing facility which will be met by Gujarat Vij Company Ltd.

Water

It will be required for general drinking and sanitary purposes. Estimated water requirement is 10,000 litres per month and will be met by local authority and bore wells.

Safety procedures

In compliance with safety standards, a unit will be created under the facility to see the implementation of all the safety measures in the factory.

Note: Our Company have not yet placed any order for any of the machinery required to be installed, further we have not entered into any definitive agreements with the suppliers.

COMPETITIVE STRENGTHS

Diversified Product portfolio

Company manufactures closed die forged products catering to automobile parts, electric power transmission parts, dairy equipment manufacturing parts, agricultural parts, gear and gear box manufacturers, crank shafts, connecting rod, heavy engineering industrial parts, hubs and flanges. With presence in most of the allied products in these industry, our Company caters to wide range of customers.

Experienced Management & Promoters

We are led by a dedicated senior management team with two decade of experience in forging manufacturing. We believe our senior management team leverages our market position and their collective experience and knowledge in the industry, to execute our business strategies and drive our future growth. In addition, we believe the strength and entrepreneurial vision of our Promoters and senior management has been instrumental in driving our growth and implementing our strategies. In addition, we have an experienced team of employees.

Healthy financial condition

Our Company has been growing operationally and the result of the same is visible in our financial position which has witnessed consistent level of growth both in revenue and profitability. Our Total Debt from Banks and FIs was at Rs. 110.00 Lakhs which is comfortably sustainable with PAT for the year ended 31st March, 2017 at Rs. 48.49 Lakhs.

BUSINESS STRATEGY

Improve and increase operational efficiencies

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater

production volumes and greater sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We will also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs. We continue to focus on investing in automation, modern technology and equipment to continually upgrade our products including the quality of our products to address changing customer preferences as well as to improve operational efficiency.

Create a global presence

Currently, we export our products only to Russia. Our revenue from export operations is not contributing significantly to our revenue from operations, which is currently less than 1% of our Total Revenue. Our strategy is to expand our footprints in various countries and an increased focus in Russian markets, this will enable us larger customer base giving incremental revenue.

Conversion to automotive production line

Currently, our Company has a manufacturing capacity which is labour intensive and manually operated machineries. This leads to lower level of production and lesser efficiency. As we move forward, we understand to fight competition, we need to have an advanced manufacturing facility. To address the same, our Company plans to expand its production capacity by establishment of its second manufacturing facility in Rajkot, which will be automotive and less dependent on manual work. Company has already imported automated hammering machine from Korea and plans to import its first press line from China.

Direct supply to OEM

Our Company currently sells products indirectly to OEMs, we sell our products to the third party distributors/suppliers who in turn sell these products to OEM’s. After establishment of automated line, we intend to sell directly to OEMs which will lead to expansion in our margins and clientele.

PRODUCT RANGE

Our Company is engaged in manufacturing of closed die forged products catering to automobile parts, electric power transmission parts, dairy equipment manufacturing parts, agricultural parts, gear and gear box manufacturers, crank shafts, connecting rod, heavy engineering industrial parts, hubs and flanges.

Our products can majorly be divided as:

Name of the Product	Product Image	Description
Crank Shaft		Crankshafts are the main rotating parts of an engine that are installed on a connecting rod and can convert the reciprocating motion into rotating motion of the connecting rod.
Connecting Rod		A connecting rod is a shaft which connects a piston to a crank or crankshaft in a reciprocating engine. Together with the crank, it forms a simple mechanism that converts reciprocating motion into rotating motion.

Name of the Product	Product Image	Description
Half Connecting Rod		<p>A connecting rod is a shaft which connects a piston to a crank or crankshaft in a reciprocating engine. Together with the crank, it forms a simple mechanism that converts reciprocating motion into rotating motion. Half Connecting rod is in two piece rod & cap, and use in application as same as single piece connecting rod.</p>
Yoke		<p>A yoke is an integral component of a drive shaft assembly. The yoke allows the drive shaft assembly to flex or slip within the required application. The component is also used to allow U-joints to rotate smoothly and properly with the drive shaft.</p>
Gear		<p>A gear is a rotating machine part having cut teeth which mesh with another toothed part to transmit torque. Geared devices can change the speed, torque, and direction of a power source.</p>
Spider/Cross		<p>A Spider/Cross is part of A differential gear mechanism, which is a gear train with three shafts that has the property that the rotational speed of one shaft is the average of the speeds of the others, or a fixed multiple of that average.</p>
Flanges		<p>A flange is joint part, which used usually of two or more shafts or pipe or wherever required joint.</p>
Shaft		<p>A shaft is a rotating machine element, usually circular in cross section, which is used to transmit power from one part to another, or from a machine which produces power to a machine which absorbs power.[1] The various members such as pulleys and gears are mounted on it.</p>

Name of the Product	Product Image	Description
Socket Clevis		<p>A socket clevis fastener is a Four-piece fastener system consisting of a clevis, clevis pin, and tang. The clevis is a U-shaped piece that has holes at the end of the prongs to accept the clevis pin and socket work as a head to hold another fixing part.</p>
Anchor Shackle		<p>A shackle is a U-shaped piece of metal secured with a clevis pin or bolt across the opening, or a hinged metal loop secured with a quick-release locking pin mechanism.</p>

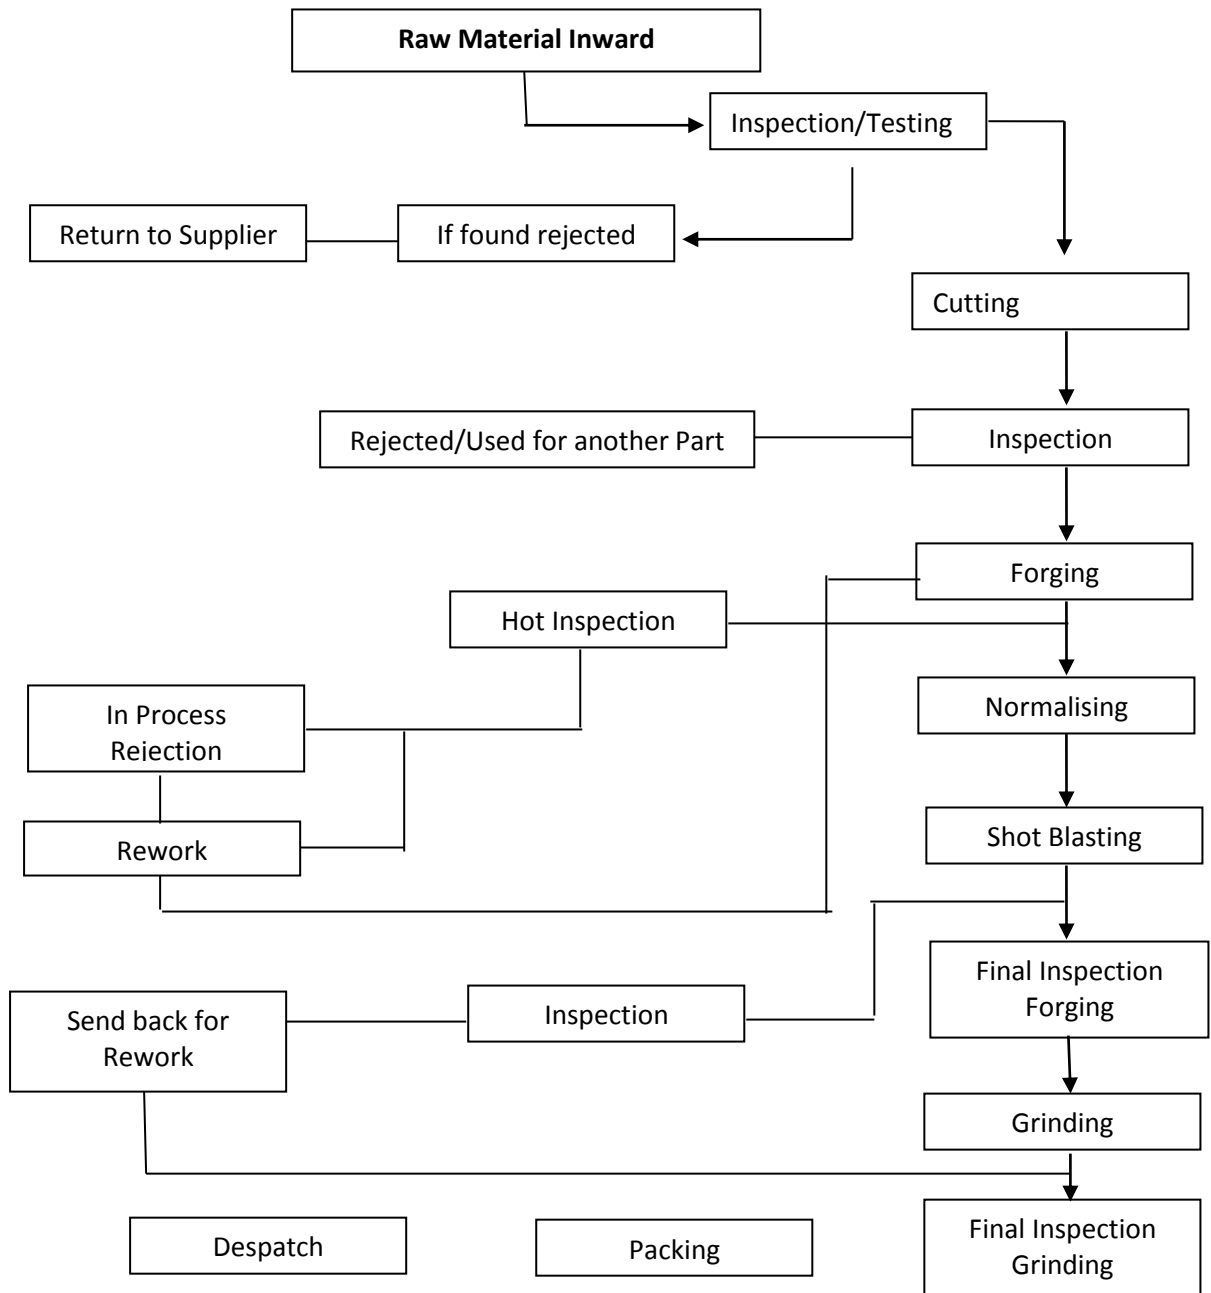

END USERS

Our products are generally used in the following type of industries:

1. Automotive – Range of vehicles from light to heavy commercial vehicles, passenger vehicles, heavy earth moving equipment, etc.
2. Locomotive – Railway engine parts
3. Agriculture – Rotovator parts
4. Transmission – Hardware parts
5. Other – Flanges, Hubs

The Company is mainly catering to the domestic market for auto, agriculture and transmission and earth moving parts and railway components to foreign buyers.

MANUFACTURING PROCESS

Design & Development

Company receives the requirement of the customer and in accordance to it, Company sketches drawings through CAD/CAM PRO-E Simulation software. Company caters to the customers' needs from concept design to validation and testing.

Die Shop

Company has fully equipped die shop with VMC machines for making precision dies. The Die prepared is then approved by the customer by comparing the plaster cast report generated by VMC machine.

Procurement of Raw material

After, Company has received the approval from customer, Company procure low carbon steel, medium carbon steel, alloy steel, stainless steel and any other type of steel as per the requirement of the customer. Further, selected on random basis per batch of order raw materials are sent to in house laboratory for spectro analysis for checking chemical composition of the billet test the composition of the raw material to judge the suitability of material composition to our requirements.

Cutting into Billets

Raw material procured is then cut and converted into billets as per the product design requirement of the customers. Company follow internally prepared colour grade for traceability of raw material from ingot condition till forging. Further, Company measures the weight of billets to ensure its suitability as per the design.

Forging

The cut billets are sent for forging where the billets are heated through induction furnace. Forging provides strength to the products and thus the method is accepted worldwide for increasing the strength of the product. Forging is done as per customer specification and their technical drawings and requirements.

Shot Blasting

After the products is forged, they are normalised and sent for shot blasting to avoid pit marks, scaling and conducted fettling operations.

Final Inspection

Finished products are inspected by our engineers in our in house testing lab for checking the strength, physical testing, micro structure, dimension check etc as per customer technical requirements and their drawings. Post completion of final inspection, a report is prepared based on ISO 9001:2008 quality requirements and the batch is sent for final packing.

INFRASTRUCTURE

Land and Manufacturing Facility:

Our manufacturing facility located at Shapar (Veraval), dist. Rajkot, is fully equipped with required machineries, computer system, internet facility and other facilities like CCTV cameras, which are required for smooth functioning of business and manufacturing operations. We have in house testing laboratory for quality control checks and testing of our products.

Electricity:

Electricity plays a major role in our production process. We have sanctioned load capacity of 700 KVA from Paschim Gujarat Vij Company Limited.

Water Facilities:

Adequate arrangements with respect to water are made through use of bore well at our facility.

Effluent treatment process:

Our manufacturing process does not produce any effluents and hence do not require any effluent

treatment plant.

Fire-fighting equipment:

In order to combat any occurrence of fire in the plant premises and adequate fire-fighting equipment are installed.

SWOT ANALYSIS

Strength

- Quality production capability
- Diversification of product basket to diversified industries.
- Experienced Promoters
- Ability to meet diverse & critical market demand

Weakness

- Intense domestic competition
- High Cost and fluctuation in prices of Inputs
- Low productivity due to semi & unskilled labour
- Inadequate support from government

Opportunity

- 100% FDI will result in innovative products and technologies
- Government initiatives like GST & Make in India
- Development in non-automotive sector like railway, defense etc.
- Increase in Export

Threat

- Cheap imports from China
- Variation in raw material quality and pricing
- Technological changes and customer preferences
- Pricing pressure from OEM's

HUMAN RESOURCE

We believe that our employees are the key contributors to our business. As on the date of this Prospectus, our Company has 68 employees as on March 31, 2018 engaged in manufacturing, marketing, and administration, financial, legal and other activities of our Company.

Our manpower is a prudent mix of experienced and youth which gives us dual advantage of stability and growth.

RAW MATERIAL

Our major raw material includes (a) Low Carbon steel, (b) Medium Carbon Steel, (c) Alloy Steel, (d) Stainless Steel for manufacturing.

Raw materials are procured from steel mills in form of cast billets, rolled billets, etc. in various sizes as per the requirement of the final products. Raw materials are procured from domestic market on price negotiation basis and availability of size and grade with the suppliers.

COMPETITION

We operate in a competitive industry where our competitors may have greater resources than those available to us. While product quality, brand value, etc are key factors in client decisions among competitors, however price plays a deciding factor in most cases.

MARKETING

The efficiency of our marketing strategy plays a crucial role in success of our Company. Our success lies in our relationship with customers. To increase our client base, we identify them, understand their needs and try to fulfil and provide them tailor made solution by manufacturing products as per their

requirement. We strictly adhere to quality standards as specified. Our marketing efforts are directed to adhere and promote sales through various methods of marketing. We intend to expand our existing customer base by reaching out to other geographical areas and addition of new products in our portfolio.

COLLABORATIONS

As on the date of this Prospectus, our Company has not entered into any financial or technical collaboration.

EXPORT AND EXPORT OBLIGATIONS

Our Company does not have any Export Obligation as on the date of this Prospectus.

Applicable Laws and Regulations

I. BUSINESS/TRADE RELATED LAWS/REGULATIONS

The Micro, Small and Medium Enterprises Development Act, 2006

The Micro, Small and Medium Enterprise Act ("**MSMED Act**"), seeks to provide for the promotion and development along with facilitating and enhancing competition among micro, small and medium enterprises. The MSMED Act inter-alia empowers the Central Government to classify by notification, any class of enterprises including a company, a partnership, firm or any other undertaking engaged in the manufacture or production as specified in the first schedule to the Industries (Development and Regulation) Act, 1951, as follows:

- (i) A micro enterprise, where the investment in plant and machinery does not exceed Rs. 25,00,000/- (Rupees Twenty Five Lakhs Only);
- (ii) A small enterprise, where the investment in plant and machinery is more than Rs. 25,00,000/- (Rupees Twenty Five Lakh Only) but does not exceed Rs. 5,00,00,000/- (Rupees Five Crores Only); or
- (iii) A medium enterprise, where the investment in plant and machinery is more than Rs. 5,00,00,000/- (Rupees Five Crores Only) but does not exceed Rs. 10,00,00,000/- (Rupees Ten Crores Only).

The MSMED Act also stipulates that any person who intends to establish, a micro or small enterprise or a medium enterprise engaged in rendering of services, may at his discretion and a medium enterprise engaged in the manufacture or production of goods as specified hereinabove, file a memorandum of micro, small or medium enterprise, as the case may be, with the prescribed authority.

The Government has proposed an amendment to the Act whereby, it proposes to define units producing goods and rendering services in terms of the annual turnover as follows:

- A micro enterprise will be defined as a unit where the annual turnover does not

- exceed five crore rupees;
- A small enterprise will be defined as a unit where the annual turnover is more than five crore rupees but does not exceed Rs 75 crore;
- A medium enterprise will be defined as a unit where the annual turnover is more than seventy five crore rupees but does not exceed Rs 250 crore.

Additionally, the Central Government may, by notification, vary turnover limits, which shall not exceed thrice the limits specified in Section 7 of the MSMED Act. This proposal has been approved by the Cabinet and is pending the approval of the Lok Sabha.

Industrial Policy of Relevant State

New Gujarat Industrial Policy 2015

Gujarat has witnessed strong growth in Micro, Small & Medium Enterprises (MSMEs) sector which covers the medium sector of Gujarat. MSME sector has a special importance as this is the sector which belongs to common man. Gujarat Government wishes to strengthen the sector by making it more technology-driven. This type of support will come by way of interest subsidy for manufacturing and service sector, venture capital assistance, quality certification, technology acquisition fund, patent assistance for national and international, energy and water conservation audit, market development assistance and support, MSMEs for credit rating, raising capital through –SME exchange, reimbursement of CGTSME scheme for collateral free loan, state awards under MSMEs and skill development etc. Support would also be extended for development of ancillary and auxiliary enterprises for labour intensive industries. The Government of Gujarat will constitute separate awards for MSMEs. The awards will be for achieving excellence through growth and production profit, quality improvement measures, environment improvement measures and innovation and new product/process/technology development. The New Gujarat Industrial Policy 2015 ("**the Policy**") encourages adoption of new and innovative technologies by providing financial support will be provided to each cluster for every innovative technology, setting up R&D Institutions, setting new laboratories, financial support through partial reimbursement of cost for filing domestic patents and international patents. Gujarat government shall be taking market development initiatives with the intention of giving enhanced visibility to local produce from large industries and specifically from MSMEs. Government of Gujarat stresses on "Zero Defect" to produce globally-competitive, locally manufactured goods. One of the expansive marketing practices around the globe is participation in international and domestic trade fairs to show one's products or wares. Government of Gujarat will make market credit available to MSMEs. Quality improvement is strongly envisaged in the new industrial policy. The assistance will be granted by national (approved by quality council of India) and international certification. The policy also intends to encourage use of enterprise resources planning system (ERP) for MSMEs. Government of Gujarat also provides assistance for raising capital through SME exchange on one time basis.

The Factories Act, 1948

The Factories Act seeks to regulate labor employed in factories and makes provisions for the safety, health and welfare of the workers. Section 2(m) of the Act, defines, a 'factory' to cover any premises whereon ten or more workers are working, or were working on any day of the preceding twelve months, and in which manufacturing process is carried on with the aid of power and any premises where twenty or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on without the aid of power. Each State Government has set out rules in respect of the prior submission of plans and their approval for the establishment, registration and licensing of factories. The Act provides that occupier of a factory i.e. the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the

directors, must ensure the health, safety and welfare of all workers especially in respect of safety and proper maintenance of the factory such that it does not pose health risks, the safe use, handling, storage and transport of factory articles and substances, provision of adequate instruction, training and supervision to ensure workers' health and safety, cleanliness and safe working conditions. There is a prohibition on employing children below the age of 14 years in a factory.

The Legal Metrology Act, 2009

The Legal Metrology Act, 2009 ("**Metrology Act**") (i) establishes and enforces standards of weights and measures; (ii) regulates trade and commerce in weights; (iii) and measures other goods which are sold or distributed by weight, measure or number and for matters connected therewith. The Metrology Act states that any transaction/contract relating to goods/class of goods shall be as per the weight/measurement/numbers prescribed by the Metrology Act. Moreover, the Metrology Act prohibits any person from quoting any price, issuing a price list, cash memo or other document, in relation to goods or things, otherwise than in accordance with the provisions of the Metrology Act.

Provisions of the Trade Union Act, 1926 provides that any dispute between employers and workmen or between workmen and workmen, or between employers and employers which is connected with the employment, or non-employment, or the terms of employment or the conditions of labour, of any person shall be treated as trade dispute. For every trade dispute a trade union has to be formed. For the purpose of Trade Union Act, 1926, Trade Union means combination, whether temporary or permanent, formed primarily for the purpose of regulating the relations between workmen and employers or between workmen and workmen, or between employers and employers, or for imposing restrictive condition on the conduct of any trade or business etc.

The Sexual Harassment of Women at workplace (Prevention, Prohibition and Redressal) Act, 2013

In order to curb the rise in sexual harassment of women at workplace, this act was enacted for prevention and redressal of complaints and for matters connected therewith or incidental thereto. The terms sexual harassment and workplace are both defined in the act. Every employer should also constitute an 'Internal Complaints Committee' and every officer and member of the company shall hold office for a period of not exceeding three years from the date of nomination. Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organising awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979

This Act has been enacted with an aim to regulate the employment of inter-state migrant workmen and to provide for their conditions of service. It is applicable to every establishment employing five or more inter-state migrant workmen or having employed in the past twelve months and to every contractor who employs or who employed five or more inter-state migrant workmen in the past twelve months. Every Principal Employer of the establishment employing inter-state migrant workmen has to make an application for the registration of the establishment in the prescribed manner and time. Also a contractor employing inter-state migrant workmen has to obtain a license for the same from the licensing officer appointed for the purpose by the Central or the state Government. The license is valid only for a specified period and requires to be renewed at its expiry. The Act levies some duties on the principal employer and the contractor. The contractor is to provide for adequate wages, medical facilities and other benefits while it is the responsibility of the principal employer to provide for the displacement allowance and journey allowance to the workmen.

Industrial Disputes Act, 1947 and Industrial Dispute (Central) Rules, 1957

The Industrial Disputes Act, 1947 ("ID Act") and the Rules made thereunder provide for the investigation and settlement of industrial disputes. The ID Act was enacted to make provision

for investigation and settlement of industrial disputes and for other purposes specified therein. Workmen under the ID Act have been provided with several benefits and are protected under various labour legislations, whilst those persons who have been classified as managerial employees and earning salary beyond prescribed amount may not generally be afforded statutory benefits or protection, except in certain cases. Employees may also be subject to the terms of their employment contracts with their employer, which contracts are regulated by the provisions of the Indian Contract Act, 1872. The ID Act also sets out certain requirements in relation to the termination of the services of the workman. The ID Act includes detailed procedure prescribed for resolution of disputes with labour, removal and certain financial obligations up on retrenchment. The Industrial Dispute (Central) Rules, 1957 specify procedural guidelines for lockouts, closures, lay-offs and retrenchment.

IV. TAX RELATED LEGISLATIONS

Income Tax Act, 1961

The Income Tax Act, 1961 ("**IT Act**") deals with the taxation of individuals, corporate, partnership firms and others. As per the provisions of the IT Act the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the IT Act. The maintenance of books of Accounts and relevant supporting documents and registers are mandatory under the IT Act. Filing of returns of Income is compulsory for all assesses.

Goods and Service Tax

Goods and Services Tax ("**GST**") is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

It is applicable on all goods except for alcohol for human consumption and five petroleum products. Taxpayers with an aggregate turnover of Rs. 20 lakhs would be exempt from tax. The exemption threshold for special category of states like North-East shall be Rs. 10 lakhs. Small taxpayers with an aggregate turnover in preceding financial year upto Rs. 75 lakhs (50 lakhs in case of special category states) may opt for composition levy. Under GST, goods and services are taxed at the following rates, 5%, 12% and 18% and 28%.

Export and supplies to SEZ shall be treated as zero-rated supplies. Import of goods and services would be treated as inter-state supplies. Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to

registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration number known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple location in a state, a separate application will be made for registration of each and every location. The registered assessee are then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

All registered partnership firms, all factory owners, all shops or establishment owners (if the shop has employed on an average five employees per day during the year), all businesses covered under the definition of 'dealer' defined in the Gujarat Value Added Tax Act, 2003 whose annual turnover is more than Rs. 2.50 lakhs, all transport permit holders, money lenders, petrol pump owners, all limited companies, all banks, all district or state level co-operative societies, estate agents, brokers, building contractors, video parlors, video libraries, members of associations registered under Forward Contract Act, members of stock exchange, other professionals, like legal consultants, solicitors, doctors, insurance agents, etc are covered under this Act. It is duty of the employers to deduct tax from the person earning any salary/wage in the organisation. For the purpose of this act, employer means in relation to an employee earning any salary or wages on regular basis under him, means the person or the officer who is responsible for disbursement of such salary or wages, and includes the head of the office or any establishment as well as the manager of agent of the employer..

V. ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986

The purpose of the Environment Protection Act, 1986 ("**the Environment Protection Act**") is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

The Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act, 1974 ("**Water Act**") aims to prevent and control water pollution as well as restore water quality by establishing and empowering the Central Pollution Control Board and the State Pollution Control Boards. Under the Water Act, any person establishing any industry, operation or process, any treatment or disposal system, use of any new or altered outlet for the discharge of sewage or new discharge of

sewage, must obtain the consent of the relevant State Pollution Control Board, which is empowered to establish standards and conditions that are required to be complied with. In certain cases, the State Pollution Control Board may cause the local Magistrates to restrain the activities of such person who is likely to cause pollution. Penalty for the contravention of the provisions of the Water Act include imposition of fines or imprisonment or both. The Central Pollution Control Board has powers, inter alia, to specify and modify standards for streams and wells, while the State Pollution Control Boards have powers, inter-alia, to inspect any sewage or trade effluents, and to review plans, specifications or other data relating to plants set up for treatment of water, to evolve efficient methods of disposal of sewage and trade effluents on land, to advise the State Government with respect to the suitability of any premises or location for carrying on any industry likely to pollute a stream or a well, to specify standards for treatment of sewage and trade effluents, to specify effluent standards to be complied with by persons while causing discharge of sewage, to obtain information from any industry and to take emergency measures in case of pollution of any stream or well. A central water laboratory and a state water laboratory have been established under the Water Act.

The Air (Prevention and Control of Pollution) Act, 1981

Pursuant to the provisions of the Air (Prevention and Control of Pollution) Act, 1981 ("**Air Act**"), any person, establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant State Pollution Control Board prior to establishing or operating such industrial plant. The State Pollution Control Board is required to grant consent within a period of four months of receipt of an application, but may impose conditions relating to pollution control equipment to be installed at the facilities. No person operating any industrial plant in any air pollution control area is permitted to discharge the emission of any air pollutant in excess of the standards laid down by the State Pollution Control Board. The penalties for the failure to comply with the above requirements include imprisonment of up to six years and the payment of a fine as may be deemed appropriate. Under the Air Act, the Central Board for the Prevention and Control of Water Pollution has powers, inter alia, to specify standards for quality of air, while the State Board for the Prevention and Control of Water Pollution have powers, inter alia, to inspect any control equipment, industrial plant or manufacturing process, to advise the State Government with respect to the suitability of any premises or location for carrying on any industry and to obtain information from any industry.

Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2016

Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2016 ("**Hazardous Waste Rules**") regulate the management, treatment, storage and disposal of hazardous waste by imposing an obligation on every occupier and operator of a facility generating hazardous waste to dispose of such waste without harming the environment. Every occupier and operator of a facility generating hazardous waste must obtain approval from the relevant state pollution control board. The occupier is liable for damages caused to the environment resulting from the improper handling and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

The Public Liability Insurance Act, 1991

The Public Liability Insurance Act, 1991 imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the

Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

VI. INTELLECTUAL PROPERTY LEGISLATIONS

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999

The Trade Marks Act, 1999 (the "**Trade Marks Act**") provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The Trade Marks Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

VII. GENERAL LAWS

Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

VIII. OTHER LAWS

Foreign Trade (Development and Regulation) Act, 1992

The Foreign Trade (Development and Regulation) Act, 1992 facilitates imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (DGFT) for the purpose of Export-Import Policy formulation. If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals in a case the order made by the appellate authority shall be considered to be final. The powers of all the civil court

under Code of Civil Procedure, 1908 shall vest in him. The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. Director General of Foreign Trade (herein after referred to as DGFT) is the main governing body in matters related to the EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999("FEMA") and the rules and regulations promulgated there under. FEMA aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

The company has been consistently providing depreciation for full year for assets purchased and put to use during the year.

g. AS - 9 Revenue Recognition :-

In appropriate circumstances, Revenue income is recognized when no significant uncertainty as to determination or realization exists. Interest income is recognized on a time proportion basis taking into account the amount outstanding and rate applicable.

h. AS - 10 Accounting for Fixed Assets :-

Tangible fixed assets are stated at cost net of recoverable taxes less accumulated depreciation.

Intangible assets are stated at cost of acquisition net of recoverable taxes less accumulated depreciation.

i. AS - 11 Accounting for effects of changes in foreign exchange rates :-

(i) Transactions dominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction or that approximates the actual rate at the date of the transaction.

(ii) Monetary items denominated in foreign currencies at the year-end are restated at year end rates.

(iii) Any income or expenses on account of exchange difference either on settlement or on translation is recognized in the profit or loss account.

j. AS – 12 Accounting for Government Grants :-

Capital subsidiary receivable specific to fixed assets is treated as per accounting standard 12 and other revenue grants is recorded as revenue items.

Capital Subsidy incentive is granted to setup unit in backward area and it is not specifically to compensate cost of fixed assets and therefore, it is shown as capital subsidy reserves in Restated financial Statement.

k. AS – 13 Accounting for Investments :-

Investments are valued at cost.

l. AS – 14 Accounting for Amalgamations :-

During the year there was no amalgamation.

m. AS – 15 Employees Retirement Benefit Plan :-

a. Provident Fund :-

Retirement benefit in the form of provident fund is a defined contribution scheme. The contributions to the provident fund are charged to the statement of profit and loss for the year when the contributions are due. The company has no obligation, other than the contribution payable to the provident fund.

b. Gratuity Plan :-

The company has defined benefit plan with LIC for its employees. The cost of providing benefit under the scheme are determined on the basis of actuarial valuation at each year end and contribution for the year is charged to the statement of profit and loss for the year.

c. Leave Encashment:-

The company measures the expected cost that it expects to pay as a result of unused entitlement that has accumulated at the reporting date and the earned leave amount for the current reporting period is charged to the statement of profit and loss for the year. The company presents the entire

leave as current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

n. AS – 16 Borrowing Cost :-

Borrowing costs that are attributable to the acquisition or construction of assets are capitalized as part of cost of such assets. All other borrowing costs are charged to revenue.

o. AS – 18 Related Party Disclosure :-

The Disclosures of Transaction with the related parties as defined in the related parties as defined in the Accounting Standard are given in notes of accounts.

p. AS – 19 Accounting for Leases :-

The Company has not entered into any lease agreements during the year.

q. AS – 20 Earnings Per Share :-

Disclosure is made in the Notes of accounts as per the requirements of the standard.

r. AS – 22 Accounting for Taxes on Income :-

Provision for Current tax is based on the assessable income under the provisions of the Income-tax Act, 1961.

Deferred tax is recognized on timing difference between taxable income and accounting income that originate in one period and capable of reversal in one or more subsequent periods. Deferred tax resulting from "timing differences" is accounted for using tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. The deferred tax assets is recognized and carried forward only to the extent that there is a reasonable / virtual certainty that the asset will be realized in future.

s. AS – 24 Discontinuing Operations :-

During the year the company has not discontinued any of its operations.

t. AS – 28 Impairment of Assets :-

At the date of each Balance Sheet, the company evaluates, indications of the impairment internally, if any, to the carrying amounts of its fixed and other assets. If any indication does exist, the recoverable amount is estimated at the higher of the realizable value and value in use, as considered appropriate. If the estimated realizable value is less than the carrying amount, an impairment loss is recorded.

Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. However, the increase in carrying amount of an asset due to reversal of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined (Net of Depreciation) had no impairment loss been recognized for the assets in prior years.

u. AS – 29 Provisions Contingent liabilities and contingent assets :-

Provision is recognized in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities are not recognized but are disclosed as under.

Contingent assets are neither recognized nor disclosed in the Financial Statements.

FINANCIAL YEAR 2016-17 COMPARED WITH FINANCIAL YEAR 2015-16

Total Revenue

Our total revenue increased by 0.55% to Rs. 1,779.17 lakhs for the financial year 2016-17 from Rs. 1,769.45 lakhs for the financial year 2015-16 due to the factors described below:

Revenue from operations

Our revenue from operations increased by 1.23% to Rs. 1,777.73 lakhs for the financial year 2016-17 from Rs. 1,756.16 lakhs for the financial year 2015-16. The increase was due to increase in sale of manufactured products by 0.93% to Rs. 1,762.99 lakhs for the financial year 2016-17 from Rs. 1,746.81 lakh for the financial year 2015-16 and increase in job work income by 57.67% to Rs. 14.74 lakhs for the financial year 2016-17 from Rs. 9.35 lakhs for the financial year 2015-16.

Other income

Our other income decreased by 89.18% to Rs. 1.44 lakhs for the financial year 2016-17 from Rs. 13.30 lakhs for the financial year 2015-16. Decrease in our other income was mainly due to decrease in interest subsidy received by our Company to nil in the financial year 2016-17 from Rs 10.98 lakhs in the financial year 2015-16. Apart from this our duty drawback income by Rs 0.11 lakhs, foreign exchange gain by Rs 0.88 lakhs and interest income by Rs 0.23 lakhs in the financial year 2016-17. However, this decrease was partially offset by increase in other income by 214.28% to Rs. 0.49 lakhs for the financial year 2016-17 from Rs. 0.15 lakhs for the financial year 2015-16.

Total Expenses

Our total expenses decreased slightly by 0.81% to Rs. 1,722.60 lakhs for the financial year 2016-17 from Rs.1,736.68 lakhs for the financial year 2015-16, due to the factors described below:

Cost of material consumed: Our cost of material consumed decreased by 1.79 % to Rs. 1,466.87 lakhs for the financial year 2016-17 from Rs. 1,493.67 lakhs for the financial year 2015-16. This was in line with our revenue from operations.

Change in inventory of finished goods

Our level of change in inventory of finished goods changed by 188.74 % to Rs. (26.24) lakhs for the financial year 2016-17 from Rs. (9.09) lakhs for the financial year 2015-16. This was due to higher level of finished goods inventory at the end of the financial year 2016-17.

Employee benefits expenses

Our employee benefit expenses increased by 25.39% to Rs. 139.72 lakhs for the financial year 2016-17 from Rs. 111.43 lakhs for the financial year 2015-16. The increase was due to increase in salary & wages by Rs. 16.69 lakhs, director remuneration by Rs. 12.00 lakhs, gratuity by Rs. 5.08 lakhs and increased in staff welfare expenses by 2.56 lakhs, contribution to provident fund by Rs 1.55 lakhs, leave encashment by Rs 0.52 lakhs, staff medical expenses & other benefits by Rs. 0.68 lakhs. However, the increase was partially offset by decrease in bonus to staff by Rs. 10.80 lakhs.

Finance costs: Our finance costs increased by 0.69% to Rs. 59.73 lakhs for the financial year 2016-17 from Rs. 59.32 lakhs for the financial year 2015-16. The increase was mainly on account of increase in bank charges by Rs. 3.28 lakhs. However, the increase was offset by net decrease in interest cost by Rs. 2.88 lakhs.

Depreciation expense

Our depreciation expense increased by 25.22% to Rs. 49.90 lakhs for the financial year 2016-17 from Rs. 39.85 lakhs for the financial year 2015-16. The increase in depreciation was in line with the change in our gross block of fixed assets by Rs. 154.92 lakhs in the financial year 2016-17 to Rs. 865.13 when compared with financial year 2015-16 which was amounting to Rs. 710.21 lakhs.

Other expenses

Our other expenses decreased by 21.39% to Rs. 32.62 lakhs for the financial year 2016-17 from Rs. 41.50 lakhs for the financial year 2015-16. Decrease in our other expenses was due to decrease in our administrative expenses by 8.63 % to Rs. 27.00 lakhs in the financial year 2016-17 from Rs. 29.55 lakhs in the financial year 2015-16 and our selling and distribution expenses decreased by 21.39% to Rs. 32.62 lakhs for financial year 2016-17 from Rs. 41.50 lakhs in the financial year 2015-16. Decrease in our administrative expenses was mainly on account of decrease in rate & taxes expenses by Rs. 4.57 lakhs, electric repair & maintenance expenses by Rs. 2.33 lakhs and travelling expenses by Rs. 1.34 lakhs among others in the financial year 2016-17. However, this decrease in administrative expenses was offset by increase in advertisement expenses by Rs. 2.23 lakhs, insurance expenses by Rs. 1.63 lakhs and other administrative expenses by Rs. 1.73 lakhs among others in the financial year 2016-17. Decrease in our selling and distribution expenses was mainly on account of decrease in selling commission by Rs. 3.70 lakhs and outward transportation by 2.75 lakhs.

Profit before tax

Our profit before tax increased by 72.99% to Rs. 56.56 lakhs for the financial year 2016-17 from Rs. 32.70 lakhs for the financial year 2015-16.

Tax expenses

Our tax expenses increased by 8.53% to Rs. 8.08 lakhs for the financial year 2016-17 from Rs. 7.44 lakhs for the financial year 2015-16. Our current tax expense increased by 45.09 % to Rs. 12.78 lakhs for the financial year 2016-17 from Rs. 8.81 lakhs for the financial year 2015-16 which was slightly set off by increase in our deferred tax benefit to Rs. 4.70 lakhs for the financial year 2016-17 from Rs. 1.37 lakhs for the financial year 2015-16.

Profit after tax

Our profit after tax increased significantly by 91.99% to Rs. 48.49 lakhs for the financial year 2016-17 from Rs. 25.26 lakhs for the financial year 2015-16 due to reasons mentioned above.

FINANCIAL YEAR 2015-16 COMPARED WITH FINANCIAL YEAR 2014-15

Our total revenue increased significantly by 13.63 % to Rs. 1,769.45 lakhs for the financial year 2015-16 from Rs. 1,557.19 lakhs for the financial year 2014-15 due to the factors described below:

Revenue from operations

Our revenue from operations increased significantly by 13.04% to Rs. 1,756.16 lakhs for the financial year 2015-16 from Rs. 1,553.61 lakhs for the financial year 2014-15. The increase was primarily due to increase in sale of manufactured products by 19.47% to Rs. 1,746.81 lakhs in 2015-16 from Rs.1,462.15 lakhs in the year 2014-15 which was partially offset by decrease in job work income by 89.78% to Rs. 9.35 lakhs in 2015-16 from Rs.91.45 lakhs in the year 2014-15.

Other income

Our other income increased significantly by 270.85% to Rs. 13.30 lakhs for the financial year 2015-16 from Rs. 3.59 lakhs for the financial year 2015-14 mainly due to increase in interest subsidy received by our Company by 306.72% to Rs. 10.98 lakhs for the financial year 2015-16 from Rs. 2.70 lakhs for the financial year 2014-15. Apart, from this our income from duty drawback increase by Rs 0.56 lakhs, foreign exchange gains by Rs 0.88 lakhs and other income by Rs 0.10 lakhs in the financial year 2015-16. However, this increase was partially offset by decrease in interest income by Rs 0.10 lakhs in the financial year 2015-16.

Total Expenses

Our total expenses increased by 15.52% to Rs. 1,736.68 lakhs for the financial year 2015-16 from Rs. 1,503.33 lakhs for the financial year 2014-15, due to the factors described below:

Cost of material consumed

Our cost of material consumed increased by 15.04 % to Rs. 1,493.67 lakhs for the financial year 2015-16 from Rs. 1,298.40 lakhs for the financial year 2014-15. Increase in cost of material consumed was primarily due to increase in our revenue from operations.

Change in inventory of finished goods

Our inventory of finished goods changed by 63.39% to Rs. (9.09) lakhs for the financial year 2015-16

from Rs. (24.82) lakhs for the financial year 2014-15. Our stock of finished goods increased by 20.21% to Rs 54.06 lakhs in the financial year 2015-16 from Rs 44.97 lakhs in the financial 2014-15.

The increase was mainly due to increase in salary & wages by Rs. 8.30 lakhs, bonus to staff by Rs 1.38 lakhs, leave encashment by Rs 0.51 lakhs, provident fund expenses by Rs 0.59 lakhs and staff medical expenses by Rs 0.28 lakhs. However, this increase was offset by decrease in gratuity by Rs 0.65 lakhs, staff welfare by Rs 0.78 lakhs and other benefits by Rs 0.20 lakhs.

Finance costs

Our finance costs increased by 3.54% to Rs. 59.32 lakhs for the financial year 2015-16 from Rs. 57.29 lakhs for the financial year 2014-15. The increase was mainly on account of increase in interest expense on working capital loan from bank loan by Rs. 2.10 lakhs, bank charges by Rs 0.53 lakhs and interest expense on unsecured loan by Rs 0.81 lakhs in the financial year 2015-16. However, this increase was offset by decrease in interest expense on term loan from bank by Rs. 1.40 lakhs in the financial year 2015-16.

Depreciation expense:

Our depreciation expense increased by 27.47% to Rs. 39.85 lakhs for the financial year 2015-16 from Rs. 31.26 lakhs for the financial year 2014-15.

Other expenses

Our other expenses increased slightly by 5.88% to Rs. 41.50 lakhs for the financial year 2015-16 from Rs. 39.20 lakhs for the financial year 2014-15. Increase in our other expenses was due to increase in our administrative expenses by 53.01% to Rs. 29.55 lakhs for the financial year 2015-16 from Rs. 19.31 lakhs for the financial year 2014-15. However, this increase was offset by decrease in our selling and distribution expenses decreased by 39.90% to Rs. 11.95 lakhs for financial year 2015-16 from Rs. 19.88 lakhs in the financial year 2014-15. Increase in our administrative expenses was mainly on account of increase in rate & taxes by Rs. 3.59 lakhs, electric repair & maintenance expense by Rs. 3.58 lakhs, professional fees by Rs. 1.18 lakhs, printing & stationery expenses by Rs. 1.08 lakhs and other administrative expenses by Rs. 1.93 lakhs among others in the financial year 2015-16. However, this increase in administrative expenses was partially offset by decreased in insurance expenses by 1.46 lakhs and ROC filing fees by Rs 0.27 lakhs in the financial year 2015-16. Decreased in selling and distribution expenses mainly on account of selling and commission expenses by Rs. 4.32 lakhs and other selling & distribution expenses by Rs. 3.38 lakhs in the financial year 2015-16

Exceptional Item

Our Exceptional item for financial year 2015-16 was of Rs. 0.07 lakh the same was nil for financial year 2014-15.

Profit before tax

Our profit before tax decrease by 39.30% to Rs. 32.70 lakhs for the financial year 2015-16 from Rs. 53.86 lakhs for the financial year 2014-15. Decrease in our PBT was primarily due to increase in our employee benefit expenses and depreciation expenses.

Tax expenses

Our tax expenses increased by 2.14% to Rs. 7.44 lakhs for the financial year 2015-16 from Rs. 7.28 lakhs for the financial year 2014-15 which was due to decrease in our current tax by Rs 8.81 lakhs which was offset by decrease in deferred tax benefit by Rs 3.49 lakhs in the financial year 2014-15.

Profit after tax

Due to factors mentioned above, our profit after tax decreased by 45.78% to Rs.25.26 lakhs for the financial year 2015-16 from Rs. 46.58 lakhs in the financial year 2014-15.

Jayantilal Mahidas Tilva, Daxaben Jayantilal Tilva, Hiralal Mahidas Tilva, Daxaben Hiralal Tilva vs. Narmada Rings Private Limited – Company Petition No. 109 of 2016

Our Promoter, Mr. Hiralal Mahidas Tilva and certain members of our Promoter Group

(“*Petitioners*”) have filed a petition for winding up against Narmada Rings Private Limited under section 433 and 434 of the Companies Act, 1956 (“*Winding up Petition*”) in the High Court of Gujarat (“*Hon’ble Court*”). The Winding up Petition has been filed on the ground that the Respondent has become commercially insolvent and that it is just and equitable that the Respondent is ordered to be wound up under the provisions of the Companies Act, 1956. Prior to filing of the said Winding up Petition, the Petitioners had issued a notice to the Respondent calling upon the Respondent to pay the outstanding dues of Rs. 1,30,03,972 due to the Petitioners together with interest at 12% p.a. with effect from April 1, 2015 within a period of 21 days from the date of receipt of the notice. The Petitioners have submitted that despite issuance of the notice, the Respondent did not reply to the same and did not pay the outstanding dues. The Petitioners were thus constrained to file the Winding up Petition. *Vide* order dated April 11, 2016, the Hon’ble Court was pleased to issue notice on the Winding up Petition returnable May 5, 2016. The Petitioners accordingly prayed for an order for winding up of the Respondent, appointment of the official liquidator to take over the assets of the Respondent and that the Respondent be restrained from disposing off any property through order of injunction. Further, the Petitioners have filed an application with the Hon’ble Court and submitted that the amount claimed has been admitted however no payments have been made. Accordingly, the Petitioners have requested the Hon’ble Court to make appropriate orders for admission and advertisement of the Petition and for the appointment of an official liquidator to take over the control over the management, affairs and property of the Respondent.

For a detailed description of the main provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and / or consolidation / splitting, please refer to the section titled “*Main Provisions of Articles of Association*” beginning on page 298 of this Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialised form. As per the SEBI (ICDR) Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated March 19, 2018 amongst NSDL, our Company and the Registrar to the Issue; and
- Agreement dated March 14, 2018 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialised form, the tradable lot is 6000 Equity Share. Allotment in this Issue will be only in electronic form in multiples of one Equity Share subject to a minimum Allotment of 6000 Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Allocation and allotment of Equity Shares through this Issue will be done in multiples of 6000 Equity Share subject to a minimum allotment of 6000 Equity Shares to the successful applicants.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO APPLICANTS

In accordance with Section 72 of the Companies Act, 2013 the sole Bidder, or the first Bidder along with other joint Applicants, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Applicants, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- (a) to register himself or herself as the holder of the Equity Shares; or
- (b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

PERIOD OF OPERATION OF SUBSCRIPTION LIST OF PUBLIC ISSUE

Due to limitation of time available for uploading the Applications on the Issue Closing Date, the Applicants are advised to submit their Applications one day prior to the Issue Closing Date and, in any case, not later than 5.00 p.m. (IST) on the Issue Closing Date. All times mentioned in this Prospectus are Indian Standard Times. Applicants are cautioned that in the event a large number of Applications are received on the Issue Closing Date, as is typically experienced in public issue, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for allocation under the Issue. Applications will be accepted only on Business Days. Neither our Company nor the Lead Manager is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise. Any time mentioned in this Prospectus is Indian Standard Time.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask for rectified data

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI (ICDR) Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 106 P (1) of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Prospectus and shall not be restricted to the minimum subscription level.

Further, in accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will be allotted will not be less than 50 (Fifty).

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs.1,00,000/- (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of National Stock Exchange of India Limited from SME Exchange on a later date subject to the following:

- (a) *If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to National Stock Exchange of India Limited for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*

OR

- (b) *If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board and if the Company fulfils the eligible criteria for listing laid by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.*

MARKET MAKING

The shares issued and transferred through this Issue are proposed to be listed on the EMERGE Platform of National Stock Exchange of India Limited (SME Exchange) with compulsory market making through the registered Market Maker of the SME Exchange for a minimum period of three years or such other time as may be prescribed by the Stock Exchange, from the date of listing on EMERGE Platform of National Stock Exchange of India Limited. For further details of the market making arrangement please refer to chapter titled “General Information” beginning on page 63 of this Prospectus.

ARRANGEMENT FOR DISPOSAL OF ODD LOT

The trading of the equity shares will happen in the minimum contract size of 6000 shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012. However, the market maker shall buy the entire shareholding of a shareholder in one lot, where value of such shareholding is less than the minimum contract size allowed for trading on EMERGE Platform of National Stock Exchange of India Limited.

AS PER THE EXTANT POLICY OF THE GOVERNMENT OF INDIA, OCBS CANNOT PARTICIPATE IN THIS ISSUE

The current provisions of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, provides a general permission for the NRIs, FIIs and foreign venture capital investors registered with SEBI to invest in shares of Indian Companies by way of subscription in an IPO. However, such investments would be subject to other investment restrictions under the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000, RBI and/or SEBI regulations as may be applicable to such investors.

The Allotment of the Equity Shares to Non-Residents shall be subject to the conditions, if any, as may be prescribed by the Government of India / RBI while granting such approvals.

OPTION TO RECEIVE SECURITIES IN DEMATERIALIZED FORM

In accordance with the SEBI (ICDR) Regulations, Allotment of Equity Shares to successful applicants will only be in the dematerialized form. Applicants will not have the option of Allotment of the Equity Shares in physical form. The Equity Shares on Allotment will be traded only on the dematerialized segment of the Stock Exchange. Allottees shall have the option to re-materialise the Equity Shares, if they so desire, as per the provisions of the Companies Act and the Depositories Act.

- (c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issue any observations on the Offer Document. The Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.

- (d) In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the LM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the issue.
- (e) The company should have track record of at least 3 years
- (f) The company should have positive cash accruals (earnings before depreciation and tax) from operations for at least 2 financial years preceding the application and its net-worth should be positive
- (g) The post issue paid up capital of the company (face value) shall not be more than Rs. 25 crore.
- (h) The issuer shall mandatorily facilitate trading in demat securities.
- (i) The issuer should not been referred to Board for Industrial and Financial Reconstruction.
- (j) No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company
- (k) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the issuer
- (l) The Company should have a website.

2.3 THERE HAS BEEN NO CHANGE IN THE PROMOTER(S) OF THE COMPANY IN THE 1 YEAR PRECEDING THE DATE OF FILING APPLICATION TO NATIONAL STOCK EXCHANGE OF INDIA FOR LISTING ON EMERGE PLATFORM.

- (a) Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.
- (b) As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 7, Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this issue.
- (c) Thus Company is eligible for the issue in accordance with regulation 106M (1) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital does not exceed Rs. 1,000 Lakhs. Company also complies with the eligibility conditions laid by the Emerge Platform of National Stock Exchange Limited for listing of our Equity Shares.

2.4 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“**Book Built Issue**”) or undertake a Fixed Price Issue (“**Fixed Price Issue**”). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in the

Prospectus (in case of a fixed price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.5 ISSUE PERIOD

The Issue shall be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period.

Details of Issue Period are also available on the website of Stock Exchange(s).

2.6 MIGRATION TO MAIN BOARD

SME Issuer may migrate to the Main Board of SE from the SME Exchange at a later date subject to the following:

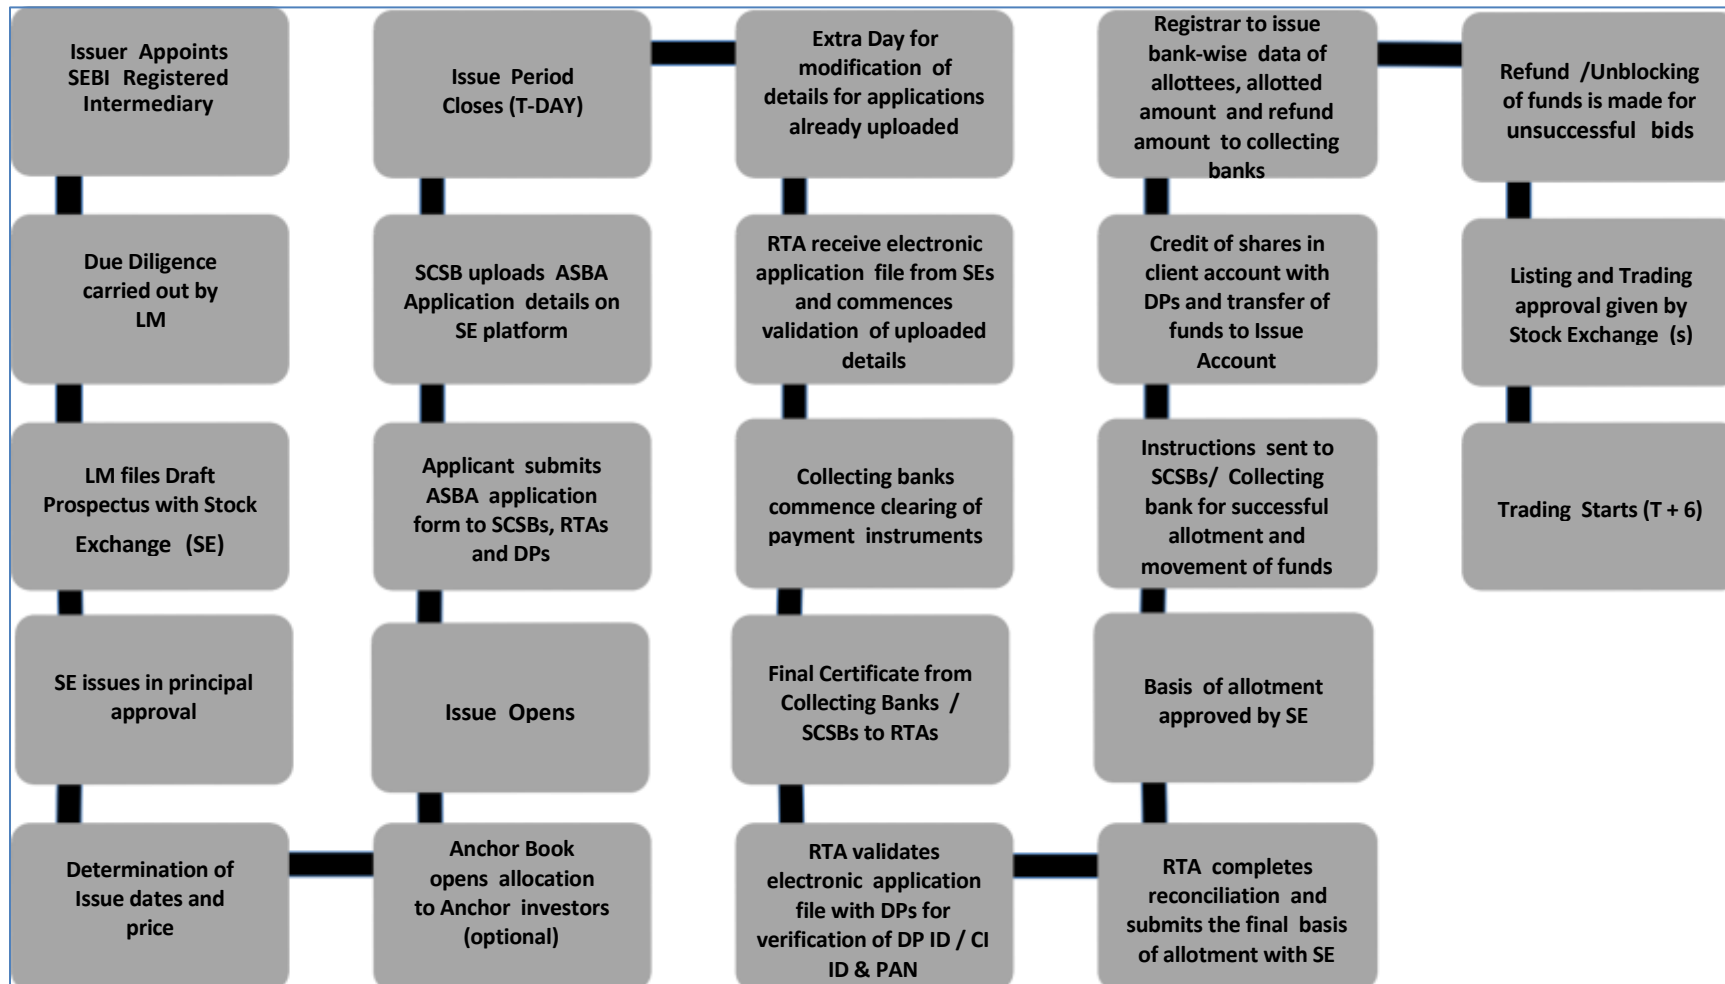

- (a) If the Paid up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favor of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfillment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

- (b) If the Paid up Capital of the company is more than 10 crores but below Rs. 25 crores, the Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

2.7 FLOWCHART OF TIMELINES

A flow chart of process flow in Fixed Price and Book Built Issues is as follows:

4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/ FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) The Designated Intermediaries and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (c) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (d) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:
Any person who:
 - makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or
 - makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or
 - otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,
Shall be liable for action under section 447 of the said Act.
- (e) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- (a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories' records.

- (b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim (“PAN Exempted Applicants”). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.
- (c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.
- (d) Application Forms which provide the General Index Register Number instead of PAN may be rejected.
- (e) Applications by Applicants whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and demographic details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- (a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the Application Form is liable to be rejected.
- (b) Applicants should ensure that the beneficiary account provided in the Application Form is active.
- (c) Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to an Issue.
- (d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- (a) The Issuer may mention Price in the Prospectus. However a prospectus registered with RoC contains one price.

- (b) **Minimum And Maximum Application Size**
- (i) **For Retail Individual Applicants**
The Application must be for a minimum of 6000 Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for 6000 Equity Shares.
- (ii) **For Other Applicants (Non Institutional Applicants and QIBs):**
The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of 6000 Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.
- (c) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to any other Application Collecting Intermediary and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.
- (d) Applicants are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple applications:
- i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
- ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- (e) The following applications may not be treated as multiple Applications:
- i. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
- ii. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the

- scheme for which the Application has been made.
- iii. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- i. The categories of applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Application, allocation and allotment in the Issue are RIIs, individual applicants other than RII's and other investors (including corporate bodies or institutions, irrespective of the number of specified securities applied for).
- ii. An Issuer can make reservation for certain categories of Applicants permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, applicants may refer to the Prospectus.
- iii. The SEBI ICDR Regulations, 2009 specify the allocation or allotment that may be made to various categories of applicants in an Issue depending upon compliance with the eligibility conditions. For details pertaining to allocation and Issue specific details in relation to allocation, applicant may refer to the Prospectus.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details
- (c) Applicants should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.
- (d) Applicants should ensure that their investor status is updated in the Depository records.

4.1.7 FIELD 7: PAYMENT DETAILS

- All Applicants are required to use ASBA facility to block the full Amount (net of any Discount, as applicable) along-with the Application Form. If the Discount is applicable in the Issue, the RIIs should indicate the full Amount in the Application Form and the funds shall be blocked for Amount net of Discount. Only in cases where the Prospectus indicates that part payment may be made, such an option can be exercised by the Applicant.
- All categories of investors can participate in the Issue only through ASBA mechanism.
- Application Amount cannot be paid in cash, through money order or through postal order or through stock invest.

4.1.1.1 Payment instructions for Applicants

SECTION 6- ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the EMERGE Platform of National Stock Exchange of India (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- (b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- (c) For applications where the proportionate allotment works out to less than 6,000 equity shares the allotment will be made as follows:
 - i. Each successful Applicant shall be allotted 6,000 equity shares; and
 - ii. The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- (d) If the proportionate allotment to an Applicant works out to a number that is not a multiple of 6,000 equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of 6,000 equity shares subject to a minimum allotment of 6,000 equity shares.
- (e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 6,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the issue specified under the Capital Structure mentioned in this Prospectus.
- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:
 - i. As per Regulation 43(4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - ii. The balance net offer of shares to the public shall be made available for allotment to
 - individual applicants other than retails individual investors and
 - other investors, including corporate bodies/institutions irrespective of

- number of shares applied for.
- iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with National Stock Exchange of India Limited.

The Executive Director / Managing Director of National Stock Exchange of India Limited - the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 ("**FEMA**"). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India ("**RBI**") and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("**DIPP**") and the concerned Ministry/ Department as laid out in the FDI Policy 2017.

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("**FDI**") through press notes and press releases. The DIPP, has issued consolidated FDI Policy Circular of 2017 ("**FDI Policy 2017**"), with effect from August 28, 2017, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100% foreign direct investment through automatic route is permitted in the sector in which our Company operates.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include:

- i. where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that:
 - a. the requisite approval of the Government has been obtained; and
 - b. the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.;
- ii. where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time;

- iii. where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that:
 - a. The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionality's (such as minimum capitalization, etc.), reporting requirements, documentation etc.;
 - b. The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank; and

- iv. where the investee company is in the financial sector provided that:
 - a. Any fit and proper/due diligence requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and
 - b. The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, 10 and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS, the total holding by each FPI or an investor group as referred in SEBI (Foreign Portfolio Investor) Regulations, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or less

than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24% of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10% and 24% will be called the individual and aggregate limit, respectively. However, this limit of 24% may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body. For arriving at the ceiling on holdings of FIIs, shares/ convertible debentures acquired both through primary as well as secondary market will be included. However, the ceiling will not include investment made by FII through off-shore Funds, Global Depository receipts and Euro- Convertible Bonds. With regard to convertible debentures, these investments permitted to be made shall not exceed 5 % of the total paid-up equity capital or 5% of the paid-up value of each series of convertible debentures issued by an Indian Company, and shall also not exceed the over-all ceiling limit of 24 % of paid-up equity capital or paid up value of each series of convertible debentures.

Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by a listed Indian company (hereinafter referred to as "Capital Instruments") on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 i.e.:

- The total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non- repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended ("US Securities Act") or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of "US Persons" as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the "Prospectus Directive") has been or will be made in respect of the Offer in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Offer.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

	<p>The Board may issue and allot shares in the capital of the Company as payment or part payment for any property sold or goods transferred or machinery or appliances supplied or for services rendered or to be rendered to the Company in or about the formation or promotion of the Company or the acquisition and or conduct of its business and shares may be so allotted as fully paid-up shares, and if so issued, shall be deemed to be fully paid-up shares.</p>	
10.	<p>The Company shall have first and paramount lien upon all shares other than fully paid-up shares registered in the name of any member, either or jointly with any other person, and upon the proceeds or sale thereof for all moneys called or payable at a fixed time in respect of such shares and such lien shall extend to all dividends from time to time declared in respect of such shares. But the Directors, at any time, may declare any share to be exempt, wholly or partially from the provisions of this Article. Unless otherwise agreed, the registration of transfer of shares shall operate as a waiver of the Company's lien, if any, on such shares.</p> <p>For the purpose of enforcing such lien, the Board of Directors may sell the shares subject thereto in such manner as it thinks fit, but no sale shall be made until the expiration of 14 days after a notice in writing stating and demanding payment of such amount in respect of which the lien exists has been given to the registered holders of the shares for the time being or to the person entitled to the shares by reason of the death of insolvency of the register holder.</p>	Lien
11.	<p>The joint holders of a share or shares shall be severally as well as jointly liable for the payment of all instalments and calls due in respect of such share or shares.</p> <p>In respect of any share or shares held jointly by several persons, the Company shall not be bound to issue more than one certificate for the same share or shares and the delivery of a certificate for the share or shares to one of several joint holders shall be sufficient delivery to all such holders. moneys unpaid on the shares held by them respectively and not by the conditions of allotment thereof made payable at fixed times, and the member shall pay the amount of every call so made on him to the person and at the time and place appointed by the Board of Directors.

A call shall be deemed to have been made at the time when the resolution of the Directors authorising such call was passed. The Board of Directors making a call may by resolution determine that the call shall be deemed to be made on a date subsequent to the date of the resolution, and in the absence of such a provision, a call shall be deemed to have been made on the same date as that of the resolution of the Board of Directors making such calls.

Not less than thirty days' notice of any call shall be given specifying the time and place of payment provided that before the time for payment of such call, the Directors may, by notice in writing to the members, extend the time for payment thereof.

The provisions of these Articles as to payment of interest shall apply in the case of non-payment of any such sum which by the terms of issue of a share, become payable at a fixed time, whether on account of the amount of the share or by way of premium, as if the same had become payable by virtue of a call duly made and notified.

The Board of Directors, may, if it thinks fit, receive from any member willing to advance all of or any part of the moneys uncalled and unpaid upon any shares held by him and upon all or any part of the moneys so advance may (until the same would, but for such advance become presently payable) pay interest at such rate as the Board of Directors may decide but shall not in respect of such advances confer a right to the dividend or participate in profits.

If by the terms of issue of any share or otherwise, any amount is made payable at any fixed times, or by instalments at fixed time, whether on account of the share or by way of premium, every such amount or instalment shall be payable as if it were a call duly made by the Directors, on which due notice had been given, and all the provisions herein contained in respect of calls shall relate and apply to such amount or instalment accordingly.

If the sum payable in respect of any call or, instalment be not paid on or before the day appointed for payment thereof, the holder for the time being of the share in respect of which the call shall have been made or the instalment shall fall due, shall pay interest for the same at the rate of 12 percent per annum, from the day appointed for the payment thereof to the time of the actual payment or at such lower rate as the Directors may determine. The Board of Directors shall also be at liberty to waive payment of that interest wholly or in part.

13.	<p>a) The instrument of transfer of any share in the Company shall be executed both by the transferor and the transferee and the transferor shall be deemed to remain holder of the shares until the name of the transferee is entered in the register of members in respect thereof.</p> <p>b) The Board shall not register any transfer of shares unless a proper instrument of transfer duly stamped and executed by the transferor and the transferee has been delivered to the Company along with the certificate and such other evidence as the Company may require to prove the title of the transferor or his right to transfer the shares. Provided that where it is proved to the satisfaction of the Board that an instrument of transfer signed by the transferor and the transferee has been lost, the Company may, if the Board thinks fit, on an application on such terms in writing made by the transferee and bearing the stamp required for an instrument of transfer, register the transfer on such terms as to indemnity as the Board may think fit.</p> <p>c) An application for the registration of the transfer of any share or shares may be made either by the transferor or the transferee, provided that where such application is made by the transferor, no registration shall, in the case of partly paid shares, be effected unless the Company gives notice of the application to the transferee. The Company shall, unless objection is made by the transferee within two weeks from the date of receipt of the notice, enter in the register the name of the transferee in the same manner and subject to the same conditions as if the application for registration was made</p>	Transfer of Shares

- d) For the purpose of Sub-clause (c), notice to the transferee shall be deemed to have been duly given if despatched by prepaid registered post to the transferee at the address given in the instrument of transfer and shall be delivered in the ordinary course of post.
- e) Nothing in Sub-clause (d) shall prejudice any power of the Board to register as a shareholder any person to whom the right to any share has been transmitted by operation of law.

Shares in the Company shall be transferred by an instrument in writing in such common form as specified in Section 56 of the Companies Act.

To give effect to such sale, the Board of Directors may authorise any person to transfer the shares sold to the purchaser thereof and the purchaser shall be registered as the holder of the shares comprised in any such transfer. The purchaser shall not be bound to see the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.

The net proceeds of any such sale shall be applied in or towards satisfaction of the said moneys due from the member and the balance, if any, shall be paid to him or the person, if any, entitled by transmission to the shares on the date of sale.

No transfer shall be made to an infant or a person of unsound mind.

Every endorsement upon the certificate of any share in favour of any transferee shall be signed by the Secretary or by some person for the time being duly authorised by the Board in that behalf.

The instrument of transfer shall, after registration, remain in the custody of the Company. The Board may cause to be destroyed all transfer deeds lying with the Company for a period of ten years or more.

The Company shall incur no liability or responsibility whatever in consequence of their registering or giving effect to any transfer of shares made or purporting to be made by any apparent legal owner thereof (as

The beneficial owner of the securities shall be entitled to all the rights and benefits and be subject to all the liabilities in respect of his securities which are held by a depository.

Notwithstanding anything in the Act or these Articles to the contrary, where securities are held in a depository, the records of the beneficial ownership may be served by such depository on the Company by means of electronic mode or by delivery of floppies or discs.

Nothing contained in Section 56 of the Act or these Articles shall apply to transfer of securities effected by a transferor and transferee both of whom are entered as beneficial owners in the records of a depository. Notwithstanding anything in the Act or these Articles, where securities are dealt with in a depository, the Company shall intimate the details thereof to the depository immediately on allotment of such securities. Nothing contained in the Act or these Articles regarding the necessity of having distinctive numbers of securities issued by the Company shall apply to securities held in a depository. The Register and Index of Beneficial Owners, maintained by a depository under the Depositories Act, 1996, shall be deemed to be the Register and Index of Members and Security Holders for the purposes of these Articles. Save as herein otherwise provided, the Company shall be entitled to treat the person whose name appears on the Register of Members as the holder of any share, as also the beneficial owner of the shares in records of the depository as the absolute owner thereof as regards receipt of dividends or bonus or services of notices and all or any other matters connected with the Company, and accordingly, the Company shall not, except as ordered by a Court of competent jurisdiction or as by law required, be bound to recognise any benami trust or equity or equitable, contingent or other claim to or interest in such share on the part of any other person, whether or not it shall have express or implied notice thereof.
